Death Summary

PATIENT:	SAYLES, ANTHONY	DICT:	Ashley R. Jones, DO-R
MR #:	017557083		
ADMITTED:	04/19/2016	DOB:	07/13/1978
EXPIRED:	04/20/2016 PT.LOC:	PAC	

ATTENDING PHYSICIAN: Mark A Jones, MD

DIAGNOSES:
1. Massive gastrointestinal bleed from perforated duodenal ulcer.
2. Chronic kidney disease, type III.
3. Hepatitis C.

CONSULTATIONS:
1. GI.
2. ENT, Dr. Bauknight.
3. Interventional Radiology, Dr. Heaton.

HISTORY OF PRESENT ILLNESS: Mr. Sayles is a 37-year-old incarcerated African American male with a past medical history significant for chronic kidney disease, heroin abuse, GERD, reported hepatitis C, presenting with vomiting and loss of appetite. The patient was in the ED waiting room when he had a large bloody bowel movement and became unresponsive. He was immediately moved to the red zone for further evaluation. He stated that he had been having vomiting for a week and that he had been on a liquid diet but not eating well. He reported that his emesis was bloody but he denied any diarrhea. He also reported subjective fever and chills. While in the emergency department he vomited a large quantity of blood and required intubation for airway protection. The medical ICU was consulted. He was started on Levophed for hypotension despite fluid resuscitation and two units of packed red blood cells. GI with consulted for an emergent scope. Massive transfusion protocol was also initiated at that time not due to continued exsanguination. Surgery was also consulted for definitive management.

HOSPITAL COURSE: The patient was admitted to the medical ICU. GI evaluated the patient noting a nasal bleed and blood in his stomach and duodenum on EGD. They saw no active bleeding. The patient had central lines placed by the surgery service who assist in administration of blood products. ENT was also consulted to assist with his epistaxis. A CT of his facial bones was performed which showed no active bleeding. The balloon catheter had been placed in his nares. After packing of his right anterior nasal septum bleeding from his nasal source resolved, the patient was subsequently taken to angio for embolization of a duodenal bleed. He did have coil embolization of the gastroduodenal artery and pseudoaneurysm that had developed by Dr. Heaton. Next, a gastroduodenal artery with frank contrast extravasation into the duodenal lumen. This was embolized proximally. He subsequently was

taken to surgery with Dr. Prest on 04/19/2016 due to abdominal compartment syndrome after subsequently decompensating. He underwent a decompressive laparotomy, lateral duodenostomy, suture repair of a bleeding duodenal ulcer, external drainage of the duodenum and passage of a distal Dobbhoff tube as well as appendectomy with Dr. Prest and Dr. Moore. He received another 7 units of packed red blood cells and 5 L of crystalloid intraoperatively. Postoperatively the patient was admitted to the surgical trauma ICU where he continued to require pressor support. He was also on Protonix and octreotide drips. Patient's abdomen was left open with a wound VAC in place. Therefore, the patient remained intubated and sedated. The patient had an acute decompensation late on 04/19/2016 resulting in need to return emergently to the OR. Upon removal of the wound VAC, the patient was noted to be bleeding from the site of the duodenal ulcer. It appeared that the ulcer had eroded through the back wall of the duodenum into the pancreatic head. The patient had uncontrolled bleeding throughout the procedure. Adequate hemostasis was unable to be obtained. The patient received 19 units of his packed red blood cells, as well as 12 units of FFP and 2 units of platelets. He continued to bleed. Upon further investigation the patient's remaining bowel and stomach became ischemic. Blood was subsequently withheld and the procedure was terminated. The prison guards were asked to contact the patient's family. After discussion with the mother regarding the patient's poor prognosis, the mother did not wish to proceed with aggressive life-saving measures. However, she did not want to withdraw care until the remainder of her family was available. The patient was moved from the operating room after a bowel bag was placed over his bowel and secured in place with Ioban. He was taken to the Peds PACU for privacy. Upon arrival into the PACU despite being on a ventilator and pressor support, the patient was noted to be in asystole. He did not have audible heart sounds or a palpable carotid pulse. The ventilator was discontinued. The patient was apneic on exam. Therefore, the patient was pronounced dead.

TIME OF DEATH: 1:50 a.m. on 04/20/2016.

TO ANY LAW ENFORCEMENT OFFICER OF THIS STATE OR COUNTY OR OF THE MUNICIPALITY OF COLUMBIA, AND ANY CONSTABLE OF THIS MAGISTERIAL DISTRICT:

It appearing from the attached affidavit that there are reasonable grounds to believe that ANTHONY JAMEL SAYLES, did on the 9 day of March, 2016 violate the criminal laws of the State of South Carolina as set forth below:

DESCRIPTION OF OFFENSE:

Anthony Sayles has violated conditions 7, 9, 10 and 11 of probation as imposed by Judge Verdin on September 10, 2013 in the Greenville County Court of General Sessions and the Continuation Orders dated 6/5/15 and 4/3/15

Now, therefore, you are empowered and directed to arrest the said defendant and bring ANTHONY JAMEL SAYLES before me forthwith to be dealt with according to law. AFFIDAVIT

Personally appeared before me, one Kevin L Kelly, who, first being duly sworn, deposes and says that ANTHONY JAMEL SAYLES did within this County and State on the 9 day of March, 2016, violate the criminal laws of the State of South Carolina in the following particulars:

DESCRIPTION OF OFFENSE:

Anthony Sayles has violated conditions 7, 9, 10 and 11 of probation as imposed by Judge Verdin on September 10, 2013 in the Greenville County Court of General Sessions and the Continuation Orders dated 6/5/15 and 4/3/15

The affiant states that there is probable cause to believe that the defendant named above did commit the crime(s) set forth, and that such probable cause is based on the following facts:

Anthony Sayles failed to follow the advice and instruction of his Agent in that he failed to pay the required supervision fees being $400 in arrears with a balance of $450; failed to pay fines being $133.90 in arrears with a balance of $133.90 and failed to pay DNA fee owing $250. Such actions constitute a violation of the written agreement signed on 9/10/13.

Sworn to and Subscribed before me

Subject: Anthony Sayles v. CCS and Richland County

Sgt. Brown,

I hope you have been doing well. As you may recall, this lawsuit relates to former detainee Anthony Sayles who was at ASGDC from April 12, 2016 through April 20, 2016. Sayles ultimately died at Palmetto Health Richland due to a perforated bleeding of an ulcer. We had conducted some depositions in this case last year, but know it is starting to "heat up". Plaintiff's counsel has sent me some discovery requests and I need assistance with the below:

1) Is there a way to identify any roommates that Sayles had while he was being detained at ASGDC?

2) Is there a way to track all of Sayles movements while at ASGDC? For example, he entered into Papa on this date and was transferred to SHU on this date.

3) Do we have any other incident reports relating to Sayles, other than the incident reports completed on 4/18/2016 by Watson and the 4/20/2016 incident report completed by Kim Hunter?

4) Do we have copies of the ASGDC Shift Roster for employees working from April 12, 2016 through April 20,2016?

5) Do we have any video footage of Anthony Sayles while he was at ASGDC?

Please let me know if you have any questions. Thank you in advance for your help!

-Dave
