FROM: Lucas N. Frame, Office of Professional Standards

SUBJECT: Inmate Morgan, Jonathan Paul (Jacket #117759A)

DATE: December 20, 2017

Allegations

At approximately 0145 on Tuesday November 28, 2017; Captain John Hicks contacted me by telephone and instructed me to come to the facility due to an inmate being unresponsive/not breathing. When I arrived at the facility at approximately 0210, inmate Jonathan Morgan (Jacket #117759A) was laying on the floor of his cell in Housing Unit India, cell 57. Emergency Medical Services (EMS) personnel and other Detention Center staff were present on the scene, but had ceased all life saving measures at that time.

Investigation

Initial Interview with Detention Center Staff

On November 28, 2017 at approximately 0300, I interviewed Officers David Beard, Krystina Bennett, Caleb Bucy, Milton Gibson, Ciji Izzard, and Cristos Kakouras regarding the above allegation. Officers Beard and Gibson began by explaining that at approximately 0100 hrs, they entered the Max II section of Housing Unit India to begin a guard tour. Officer Gibson stated that he was informed by inmate Marcus Center that they needed to check on inmate Jonathan Morgan because he believed he was hyperventilating. Upon approaching his cell, Officer Gibson stated that inmate Morgan was laying on his bed and that he noticed inmate Morgan was taking shallow breaths. Officer Gibson stated that it appeared that inmate Morgan was "gasping for breath." Officer Gibson also stated that he observed a white foam like substance around the lips of inmate Morgan. Officer Gibson stated that after several attempts to have inmate Morgan acknowledge him verbally, he called a 10-33 (Medical Emergency) via his radio.

Officer Beard stated that within moments of the initial call for assistance, multiple Detention Officers arrived on scene. Officer Bucy stated that he was the first additional officer on scene. Upon approaching inmate Morgan's cell, officer Bucy signaled to have the cell door open. Officer Bucy stated that he attempted three (3) sternum rubs on inmate Morgan in an attempt to have him acknowledge their presence. A few seconds later Sergeant Knight and Corporal Kakouras arrived on scene to assist with the medical emergency. Corporal Kakouras stated that he attempted to have inmate Morgan acknowledge their presence by using a smelling salt under the nose of inmate Morgan. Corporal Kakouras stated that it appeared that inmate Morgan responded slightly to the smelling salt, but still did not verbalize anything to the officers on scene.

A few minutes after the initial call for medical assistance was made, Officer Bucy stated that Sergeant Totherow and officer Izzard arrived on scene. Officer Bucy stated that Sergeant Totherow brought the medical emergency bag from booking to the scene and from that began taking the vital signs of inmate Morgan. Officer Bennett stated that Sergeant Totherow placed the blood pressure cup on inmate Morgan's arm and the Oxygen monitor on his finger in an attempt to gain vital signs. Officer Bucy stated that they could not get a reading from either device. The decision was then made by Sergeant Totherow to being CPR on inmate Morgan. The officers present stated that CPR was done for a short time on inmate Morgan, while Sergeant Knight went and retrieved the AED. Upon returning, Sergeant Knight placed the AED on inmate Morgan and followed the voice commands issued by the AED. According to Corporal Kakouras, the AED did not advise a shock, but to instead continue CPR. Sergeant Knight, Corporal Kakouras, Officer Bucy and Officer Bennett continued CPR. Emergency Medical Services arrived on scene a short time later and began assisting Detention Center staff with life saving measures. The decision was made by the Emergency Medical Services supervisor that all life saving measures would cease at 0154 and inmate Morgan was pronounced dead.

Interview with Master Grade Sergeant Brandon Knight

On December 6, 2017 at approximately 1815, I interview Sergeant Brandon Knight in reference to the above allegations. Sergeant Knight explained that he was one of the transporting officers returning inmate Morgan back to Housing Unit India upon his return from the Rock Hill Police Department. Sergeant Knight stated that as he was returning inmate Morgan to his cell, inmate Morgan made comments to the effect that while at Rock Hill, he was able to steal someone's Starbucks coffee and drink it. Sergeant Knight stated that inmate Morgan was in fair condition while they were returning him to his cell and that he did not notice anything wrong with inmate Morgan.

I asked Sergeant Knight to walk me through what he saw and did after responding to the medical emergency. Sergeant Knight stated that upon arriving on scene he saw inmate Morgan laying on his back in his bed and he also noticed what appeared to be a white film like substance around inmate Morgan's mouth. Sergeant Knight stated that inmate Morgan would not respond to any verbal command or questions from staff members. Sergeant Knight explained that Officer Bucy delivered approximately three (3) sternum rubs to inmate Morgan in an attempt to draw a response from him. Sergeant Knight explained that during the sternum rubs, it appeared that inmate Morgan slightly responded, but inmate Morgan still did not verbally communicate to staff members. After the failed sternum rubs to inmate Morgan, Officer Bucy then retrieved an ammonia tablet from Corporal Kakouras and held it to inmate Morgan's nose and mouth in another attempt to draw a response. Again Sergeant Knight stated that inmate Morgan slightly responded by moving his arms, but still was unable to communicate verbally. Sergeant Knight explained that after the failed sternum rubs and ammonia tablet, Sergeant Totherow arrived on scene and attempted to check his vital signs. The vital signs were not able to be read due to the state inmate Morgan was in. At this time Sergeant Knight exited the cell and headed for the officers console in Housing Unit India to notify Master Control to contact EMS. Sergeant Knight stated that after returning to the scene, Detention Center staff had initiated CPR on inmate Morgan on his bed. Sergeant Knight again exited the cell to retrieve the Automated External Defibrillator (AED) from the officer's console. Sergeant Knight stated that once he returned, he placed the AED on inmate Morgan, but it advised to continue CPR rather than producing a shock. Sergeant Knight and Detention Center staff continued CPR on inmate Morgan. A short time later, Officer Bucy returned and assisted Detention Center staff in moving inmate Morgan from his bed to the cell floor in an attempt to better perform CPR. Sergeant Knight stated that a moment later EMS personnel arrived on scene, but explained that Detention Center staff were the ones who continued CPR on inmate Morgan. Sergeant Knight stated that he along with Corporal Kakouras and Officer Bucy were the ones who took turns performing CPR compressions on inmate Morgan while Officer Bennett and Corporal Kakouras took turns providing breaths. After several cycles of CPR, Sergeant Knight explained that EMS personnel placed a device on inmate Morgan which took over CPR compressions. At that time, one of the EMS personnel took a tube like device and placed it in inmate Morgan's mouth causing blood to spew out of his mouth. Sergeant Knight stated that all personnel present continued life saving measures on inmate Morgan until the EMS supervisor advised them to stop and pronounced inmate Morgan dead at approximately 0154. At that time Sergeant Knight advised Detention Center staff to begin covering the cell windows of all inmates in Max II.

Interview with Master Grade Sergeant Arthur Totherow

On December 6, 2017 at approximately 1830, I interviewed Sergeant Arthur Totherow in reference to the above allegations. I asked Sergeant Totherow to walk me through what he saw and did after hearing the medical emergency call. Sergeant Totherow explained that he was in the booking area when he heard the 10-33. He immediately grabbed the medical bag from the supervisor's office and began to head toward Housing Unit India. He explained that upon arriving on scene, inmate Morgan was laying on his bed in his boxers and that Sergeant Knight, Corporal Kakouras, Officer Bucy, Officer Gibson, and Officer Bennett were already on scene. Sergeant Totherow explained that he entered the cell and attempted to check the vital signs of inmate Morgan. Sergeant Totherow explained that he placed the blood pressure cup on inmate Morgan's arm and the Oxygen sensor on his finger. He stated that machines were not able to read any of inmate Morgan's vital signs. Sergeant Totherow then instructed Officers Bucy and Gibson to head to booking and prepare for transport because the decision was made to notify EMS. Sergeant Totherow then stated that he made the decision to begin CPR on inmate Morgan. He stated that Officer Izzard began chest compressions on inmate Morgan while he performed rescue breaths. Sergeant Totherow stated that they did approximately two cycles of CPR on inmate Morgan when Sergeant Knight returned with the AED. At this time Sergeant Totherow exited the cell and headed back to booking in order to make the necessary phone calls to the command staff to inform them of the ongoing situation. Upon returning to booking, Sergeant Totherow instructed Officer Bucy to return to Max II to help Detention Center staff with the life saving measures.

Interview with Detention Officer II Caleb Bucy

On December 6, 2017 at approximately 1850, I interviewed Officer Caleb Bucy in regards to the above allegations. I asked Officer Bucy to tell me what he saw and did after hearing the medical emergency call. Officer Bucy stated that he along with Sergeant Knight and Corporal Kakouras were in the process of returning an inmate to Housing Unit India when he heard the radio call. Officer Bucy stated that Sergeant Knight and he immediately responded to Max II to assist. Upon arriving on scene, Officer Bucy stated that it appeared that inmate Morgan was possibly having a seizure. He explained that he and Officer Gibson entered the cell in order to check on inmate Morgan. He stated that he drew his Taser as a precautionary measure because inmate Morgan was known to fake medical emergencies. Officer Bucy stated that he noticed a white film like substance around the lips and mouth of inmate Morgan and further more stated that he smelled a minty-like odor. Officer Bucy called out to inmate Morgan several times in an attempt to find out what was going on with him, but inmate Morgan did not respond. At this time, Officer Bucy holstered his Taser and performed approximately three (3) sternum rubs on inmate Morgan in order to get him to respond. Officer Bucy stated that inmate Morgan slightly responded to the sternum rubs by groaning and moving his arms. Officer Bucy then stated he retrieved an ammonia tablet from Corporal Kakouras and placed that around the nose and mouth of inmate

Morgan in another attempt to get him to respond to Detention Center staff. Again inmate Morgan slightly responded, but still could not verbalize anything to staff. After the ammonia tablet failed to elicit a response, Sergeant Totherow arrived on scene and attempted to check the vital signs of inmate Morgan. Officer Bucy stated that Sergeant Totherow placed the blood pressure cup and Oxygen sensor on him, but they were not able to get a reading. At this time, Sergeant Totherow advised Officer Gibson and him to return to booking to prepare for a transport because EMS was being notified. Officer Bucy stated he headed towards booking to begin gathering his transport gear. A short time later, Sergeant Totherow returned to booking and informed him that inmate Morgan was not breathing and that CPR had been initiated. Sergeant Totherow advised him to return to the scene to assist with the life saving measures.

Officer Bucy stated that upon returning to the scene, Sergeant Knight was performing chest compressions while Officer Bennett was performing rescue breaths on inmate Morgan. Officer Bucy then stated that he assisted with the placement of inmate Morgan on the cell floor in an attempt to get better positioning for CPR. Officer Bucy then switched out with Sergeant Knight in performing chest compressions on inmate Morgan. Officer Bucy went on to explain that for the next few minutes, he along with Sergeant Knight and Corporal Kakouras continued to switch out on chest compressions to avoid becoming tired. A short time later EMS arrived on scene, and assisted Detention Center staff with the life saving measures. Officer Bucy stated that EMS personnel placed a device on inmate Morgan that began performing the chest compressions for them. He explained that shortly after the placement of the device, one of the EMS personnel placed a tube like device down inmate Morgan's throat causing blood to spew out. After the blood had spewed out of inmate Morgan's mouth, Officer Bucy stated that one of the EMS personnel asked Detention Center staff if it was possible that inmate Morgan swallowed a razor. Officer Bucy informed EMS personnel that inmates have the ability to get a razor one time a day in the morning. Officer Bucy then instructed Officer Beard to return to the officer's console and check to see if inmate Morgan's razor was there and still intact. Officer Beard returned and advised that inmate Morgan's razor was accounted for. A short time later, the EMS supervisor instructed everyone present that all life saving measures would cease and she pronounced him dead at approximately 0154. After inmate Morgan was pronounced dead, Officer Bucy was instructed to assist with the covering of inmate's windows in Max II.

Interview with Lead Booking Officer Cristos Kakouras

On December 6, 2017 at approximately 1920, I interviewed Corporal Cristos Kakouras in reference to the above allegations. Corporal Kakouras was asked to explain in detail what he did and saw after hearing the medical emergency call. Corporal Kakouras stated that he was assisting in returning an inmate back to Housing Unit India with Sergeant Knight and Officer Bucy when he heard the 10-33. He

stated that he stayed with the inmate while Sergeant Knight and Officer Bucy responded immediately. Corporal Kakouras explained that Officer Izzard arrived to Housing Unit India to assist with the situation, but was asked by him to assist in putting the inmate back into his cell. Once the inmate had been returned to his cell, both responded to the scene to assist. Upon entering the cell, Officer Bucy asked him for an ammonia tablet so that it could be used to try and get inmate Morgan to respond. Corporal Kakouras handed Officer Bucy an ammonia tablet and he placed it around the nose and mouth of inmate Morgan. Corporal Kakouras stated that inmate Morgan slightly responded to the ammonia tablet by moving his arms. Corporal Kakouras went on to say that it sounded like inmate Morgan was making a gurgling noise before and after the ammonia tablet was administered to inmate Morgan.

Corporal Kakouras explained that moments after the ammonia tablet failed to elicit a response from inmate Morgan, Sergeant Totherow attempted to obtain vital signs from Morgan by placing a blood pressure cup on his arm and an oxygen sensor on his finger. After a few moments it was determined that no vital signs would be able to be gathered. Corporal Kakouras stated that Sergeant Totherow advised Officers Bucy and Gibson to head to booking to prepare for transport while Sergeant Knight exited to inform Master Control to contact EMS. After they had all exited, Corporal Kakouras stated that Sergeant Totherow informed him that CPR would need to begin on inmate Morgan. At that time, Officer Izzard began chest compressions while Sergeant Totherow administered rescue breaths. Corporal Kakouras stated that at this time he left to inform Sergeant Knight that CPR had been initiated on inmate Morgan. Sergeant Knight returned to the cell with the AED and it was placed on inmate Morgan. Corporal Kakouras stated that the AED advised Detention Center staff to continue CPR rather than administering a shock to inmate Morgan. A short time later, Officer Bucy returned to the cell and assisted Sergeant Knight and Corporal Kakouras in placing inmate Morgan on the cell floor. Once on the floor, Corporal Kakouras explained that Sergeant Knight, Officer Bucy, and he took turns performing chest compressions on inmate Morgan. He also stated that he and Officer Bennett took turns administering rescue breaths to inmate Morgan. Corporal Kakouras explained that after several minutes of CPR, EMS arrived on scene but instructed Detention Center staff to continue CPR. Corporal Kakouras stated that Detention Center staff did most of the CPR until EMS personnel produced a device which took over chest compressions. After the device had been placed on inmate Morgan, Corporal Kakouras explained that one of the EMS personnel took a tube like device and placed it in the mouth of inmate Morgan. A few seconds later, blood came out of the mouth of inmate Morgan, spraying on one of the EMS personnel. The spraying of the blood led one of the EMS personnel to ask Detention Center staff if it was possible that inmate Morgan swallowed a razor. Corporal Kakouras explained that Officer Bucy answered by saying inmates have access to a razor once a day in the morning. Officer Bucy also had Officer Beard go and check the razor box to ensure inmate Morgan's razor was present. At this time, Corporal Kakouras explained that he went to booking to retrieve all available information on

inmate Morgan for EMS personnel. Upon returning to the scene, the EMS supervisor instructed all present to cease with life saving measures and inmate Morgan was pronounced dead. Corporal Kakouras then stated he assisted with the covering of inmate windows in Max II.

Interview with Detention Officer II Ciji Izzard

On December 6, 2017 at approximately 1935, I interviewed Officer Ciji Izzard in reference to the above allegations. I asked Officer Izzard to explain what she did and saw after hearing the medical emergency call. Officer Izzard stated she was working in booking when she heard the call over the radio for assistance. She stated that Sergeant Totherow and she immediately headed towards Housing Unit India to assist. Upon arriving to Housing Unit India, she was asked by Corporal Kakouras to help put an inmate back in his cell. After they had placed the inmate back in his cell, they both reported to the scene. Upon arriving on scene, Officer Izzard explained that Officer Bucy was performing a sternum rub on inmate Morgan in an attempt to have him respond to them. Officer Izzard explained that inmate Morgan responded slightly to the sternum rub by moving his arms. After the sternum rub was performed, Officer Izzard stated that Officer Bucy asked Corporal Kakouras for an ammonia tablet to which he gave him. Officer Bucy then placed the ammonia tablet over the mouth and nose area of inmate Morgan. Officer Izzard explained that once again inmate Morgan responded slightly by moving his arms and grunting. Officer Izzard stated that inmate Morgan was never able to verbalize anything to Detention Center staff thus Sergeant Totherow attempted to obtain vital signs from inmate Morgan. Sergeant Totherow placed the blood pressure cup and oxygen sensor on inmate Morgan but no vital signs were given by the devices. At this time Officers Bucy and Gibson exited the cell to prepare for transport of inmate Morgan, while Sergeant Knight exited to contact Master Control in order to have EMS contacted. After they all had exited, Officer Izzard explained that Sergeant Totherow advised the remaining staff that CPR would need to be initiated. Officer Izzard stated she was the first staff member to perform chest compressions on inmate Morgan, while Sergeant Totherow performed rescue breaths. After a few cycles, Sergeant Knight returned to the scene with the AED and it was placed on inmate Morgan. Officer Izzard stated that after the AED was placed on inmate Morgan, it advised Detention Center staff to continue CPR rather than administering a shock. Officer Izzard then explained that Corporal Kakouras took over chest compressions while Officer Bennett took over rescue breaths from Sergeant Totherow. After a few more cycles of CPR, Officer Izzard explained that Officer Bucy returned to the scene and assisted Sergeant Knight and Corporal Kakouras with the lowering of inmate Morgan to the cell floor.

Once on the floor, Officer Izzard explained the CPR was continued on inmate Morgan by Sergeant Knight, Corporal Kakouras, Officers Bucy and Bennett. A short time later, EMS personnel arrived on scene. Officer Izzard stated that Detention Center staff continued the life saving measures up until EMS personnel produced a device that took over chest compressions. Officer Izzard stated that after the chest compression device was placed on inmate Morgan, one of the EMS personnel produced a tube like device and proceeded to place it in inmate Morgan's mouth causing blood to spill out. Officer Izzard then stated that one of the EMS personnel asked if it was possible that inmate Morgan swallowed a razor. Officer Bucy answered the EMS personnel. Officer Izzard then stated that she began to search through inmate Morgan's belongings searching for possible suicide note. She stated that she did not find anything resembling a suicide note. Officer Izzard went on to say that the life saving measures continued for a short time later until the EMS supervisor instructed everyone to cease. At that time, inmate Morgan was pronounced dead. Officer Izzard then assisted with the covering of inmate windows in Max II.

Interview with Detention Officer Krystina Bennett

On December 6, 2017 at approximately 1950, I interviewed Officer Krystina Bennett in reference to the above allegations. Officer Bennett was asked if she was assigned to Housing Unit India on the night of November 27, 2017. She replied "Yes, I was assigned to the console in Housing Unit India first rotation, and then I moved to the rover position at midnight. Officer Bennett was asked if she saw inmate Morgan return to the unit. Officer Bennett explained that she did see him in the Max II corridor being returned to his cell. Officer Bennet said inmate Morgan looked to be his normal self. Officer Bennett was asked if inmate Morgan made any contact with her or the other two officers assigned to Housing Unit India upon his return. She stated that inmate Morgan used his intercom to buzz into the officer's console and ask for two request forms, one for a bible and the other for a comb. Officer Bennett was asked if she could recall about what time that was, she replied approximately 0045. Officer Bennett was asked if she knew how many rounds they conducted from 0000-0100. Officer Bennett stated that they did an initial round at or around midnight to get inmates out for their recreations, but could not recall doing another full round. She stated that Officer Gibson and she entered Max II to clean a cell out that was left in an uninhabitable condition by an inmate who had been removed. She stated that took approximately 15 minutes.

Officer Bennett was asked to explain the sequence of events that took place at 0100. She explained the Officer Gibson and she entered Max II at approximately 0100 to conduct a guard tour. Upon entering she began doing the round, while Officer Gibson was called to inmate Marcus Center's cell. There, inmate Center informed him that he needed to check on his cell mate, inmate Jonathan Morgan because it sounded like he was hyperventilating. At that time both Officers Gibson and Bennett headed to

inmate Morgan's cell to check on him. Upon reaching his cell, Officer Bennett stated that inmate Morgan was laying on his bed in his boxers. She stated that both Officer Gibson and she called out to inmate Morgan, but he never responded to them. At this time, Officer Gibson used his radio to call a medical emergency. A short time later, Sergeant Knight and Officer Bucy responded and entered the cell. Officer Bennett stated that Officer Bucy drew his Taser in case inmate Morgan was faking. After inmate Morgan did not respond to any verbal commands, Officer Bucy holstered his Taser and performed approximately three (3) sternum rubs on inmate Morgan. After the sternum rubs did not elicit a verbal response from inmate Morgan, Officer Bucy retrieved an ammonia tablet from Corporal Kakouras and administered it to him, but again that did not elicit a verbal response. Officer Bennett stated that at this time, Sergeant Totherow arrived and attempted to take the vital signs of inmate Morgan, but was unable to get a reading from the blood pressure cup and oxygen sensor. Officer Bennett then explained that Sergeant Totherow instructed Officers Bucy and Gibson to prepare for transport. Officer Bennett also stated at this time, Sergeant Knight exited to contact Master Control to call EMS. Sergeant Totherow then instructed the remaining staff to begin CPR on inmate Morgan. Officer Bennett stated that Officer Izzard began chest compressions, while Sergeant Totherow began rescue breaths. A short time later, Officer Bennett stated that Sergeant Knight returned with the AED and it was placed on inmate Morgan. Officer Bennett explained that the AED instructed staff to continue CPR and that it did not advise shocking inmate Morgan.

Officer Bennett stated that after the AED advised that, Sergeant Totherow exited the cell to contact administration and inform them of the ongoing situation while Sergeant Knight, Corporal Kakouras, and Officer Bucy continued chest compressions. Officer Bennett stated that Corporal Kakouras and she took turns performing rescue breaths. She explained that they did multiple cycles of CPR until EMS arrived and even thereafter until a device was placed on inmate Morgan that took over chest compressions. At this time, Officer Bennett explained that one of the EMS personnel placed a tube down the throat of inmate Morgan causing blood to splatter everywhere. After this, Detention Center staff was asked by EMS personnel if it were possible that inmate Morgan swallowed a razor. Upon hearing this, Officer Bennett stated that Officer Izzard and she began searching the room looking for both a razor and a possible suicide note left by inmate Morgan, but did not find either. A few moments later, Officer Bennett stated that the EMS supervisor instructed all members to cease with life saving measures and pronounced inmate Morgan dead at approximately 0154.

Interview with Detention Officer I David Beard

On December 8, 2017 at approximately 2015, I interviewed Officer David Beard regarding the above allegations. Officer Beard was asked if he was assigned to Housing Unit India on November 27, 2017. He replied "Yes." Officer Beard went on to explain that he along Officer Gibson were the rovers for the first rotation while Officer Bennett was on the console. Officer Beard was asked if he recalled inmate Morgan returning to the unit during the night. Officer Beard stated that he did remember and that he engaged in a conversation with him upon returning. Officer Beard stated that inmate Morgan was joking that he stole someone's Starbucks coffee while at the Rock Hill Police Department and drank it. Officer Beard was asked if inmate Morgan had any other interactions with staff after returning to his cell. Officer Beard stated that inmate Morgan buzzed into the officer's console and asked him for two request forms. One request form was for the Chaplain to obtain a bible, while the other was to Officer Morrison for a comb. Officer Beard told him that he would get them to him sometime during the night. Officer Beard was asked what time he switched out with Officer Bennett on the console. Officer Beard stated that it was approximately 0045. Officer Beard was then asked if he knew how many rounds Officers Bennett and Gibson did between 0000-0100. Officer Beard explained that the officers did an initial round to get recreations out at approximately 0000 and then returned to the officer's console. He also explained that Officer's Bennett and Gibson left the officer console approximately ten minutes later to clean out a cell in Max II. Officer Beard stated after cleaning the cell, both officers returned to the officer's console. Officer Beard was asked if another round was done before 0100. He replied "to my knowledge, no." Officer Beard was asked if he had any part in assisting with CPR on inmate Morgan. He replied "No." He explained that he remained on the console while everyone else assisted with the medical emergency. Later on after EMS had arrived he was replaced by Officer Smith and entered Max II and explained that inmate Morgan was laying on the floor with a device on his chest. At that time, EMS had already pronounced inmate Morgan dead, thus he began assisting with the covering of inmate windows in Max II.

Interview with Detention Officer II Milton Gibson

On December 6, 2017 at approximately 2030, I interviewed Officer Milton Gibson regarding the above allegations. Officer Gibson was asked if he was assigned to Housing Unit India on November 27, 2017. He replied "Yes." Officer Gibson was asked if he was assigned to be the rover in Housing Unit India for the first and second rotation. He replied "Yes." Officer Gibson was asked if he saw inmate Morgan when he returned to the unit. He explained that he did not physically see him, but was informed by Officer Beard that he had been returned. Officer Gibson was asked if inmate Morgan had any interaction with staff upon his return. Officer Gibson stated that he buzzed in and asked for two request forms from Officer Beard. One was for a bible, the other for a comb. Officer Gibson was asked when the first time he physically viewed inmate Morgan was. He explained that he brought inmate Morgan

his mail at approximately 2355. He went on to say that inmate Morgan appeared to be in good health and was able to come to his cell door and sign for his mail with no issues. Officer Gibson stated that after handing him his mail, he and Officer Bennett conducted a guard tour and returned to the officer's console. He then stated that at approximately 0016 they entered Max II in order to clean out cell 54 because it was in poor condition. Officer Gibson stated that took approximately 15 minutes, then both officers returned to the console. Officer Gibson was then asked when their next guard tour was conducted. He stated that it was done at approximately 0100 because they had to let inmates out for their one hour recreation. Officer Gibson was asked if a guard tour was conducted between 0015-0100 to which he replied "No, I don't think so."

Officer Gibson was asked to explain what he saw when he entered Max II at 0100. He went on to explain that upon entering, Officer Bennett began the guard tour by starting on the right side meanwhile he was called to inmate Center's cell. Inmate Center informed him that they needed to check on inmate Morgan because it sounded like he was hyperventilating. Officer Gibson stated he immediately went over to inmate Morgan and could see him lying on his bed in his boxers. He explained that it appeared that inmate Morgan was having a seizure and that he could hear what sounded like a gurgling noise. Officer Gibson stated that he called for inmate Morgan multiple times, but did not receive a response. Officer Bennett also attempted to get the attention of inmate Morgan, but again did not receive a response. At that time, Officer Gibson stated he called for a 10-33. A few moments later, Officer Bucy arrived on scene and they entered inmate Morgan's cell. Upon entry, Officer Gibson stated that he noticed a white substance on the lips of inmate Morgan. He stated that Officer Bucy performed approximately three (3) sternum rubs on inmate Morgan, but he did not respond. Officer Bucy then administered an ammonia tablet to inmate Morgan, but again did not receive a response from him. At this time, Officer Gibson stated that Sergeant Totherow entered the cell and attempted to obtain vital signs from inmate Morgan. Sergeant Totherow was unable to obtain any vital signs from inmate Morgan. At this time, Sergeant Totherow instructed Officers Bucy and him to return to booking and prepare for transport with inmate Morgan. Officer Gibson stated that he returned to booking to gather his gear and began assisting Officer Smith with covering cell windows in booking. A short time later, Officer Gibson stated that he escorted the EMS supervisor to Housing Unit India. Officer Gibson was asked if he had helped perform CPR on inmate Morgan to which he replied "No." He went on to say that after his initial entry into the cell, he did not re-enter the cell.

Video Surveillance

I watched video surveillance from Monday November 27, 2017, as well as Tuesday November 28, 2017. The following is a summary of what was observed:

Monday, November 27, 2017

23:04:15	Inmate Morgan re-enters the facility from the Rock Hill City Jail.
23:12:50	Sergeant Knight conducts a clothed body search of inmate Morgan.
23:13:18	Inmate Morgan in placed in cell I2A
23:29:10	Inmate Morgan is removed from cell I2A. Handcuffs and leg irons are placed on inmate Morgan by Sergeant Knight. Inmate Morgan is then transported to back to Housing Unit India.
23:34:10	Inmate Morgan enters Housing Unit India.
23:26:20	Inmate Morgan is placed in cell I-57 in Housing Unit India, Max II.
23:38:30	Inmate Morgan passes an unknown item to inmate Jerry Cousar. Inmate Cousar delivers the unknown item to the inmate in cell I-50.
23:42:30	Inmate Morgan standing in cell window conversing with inmate Cousar.
23:48:20	Inmate Morgan passes an unknown item to inmate Cousar.
23:55:28	Inmate Cousar exits the conversation with inmate Morgan.

Tuesday, November 28, 2017

00:00:29	Officers Bennett and Gibson enter Max II through the main door
00:01:00	Inmate Morgan signs for and receives inmate mail from Officer Gibson.
00:03:41	Officers Bennett and Gibson exit Max II through the recreation yard.
00:15:20	Officers Bennett and Gibson enter Max II. Officers appear to clean cell I-54.
00:27:30	Officers Bennett and Gibson exit Max II through the main door.
01:00:50	Officers Bennett and Gibson enter Max II through the main door.
01:01:10	Officer Gibson checks on inmate Morgan by viewing him through his cell window.
01:02:50	Officer Gibson steps away from the cell and calls a 10-33 (Medical Emergency)
01:03:20	Officer Bucy arrives on scene. Officers Bucy and Gibson enter inmate Morgan's cell.
01:03:31	Sergeant Knight arrives on scene.
01:04:40	Sergeant Totherow and Officer Izzard arrive on scene with emergency medical bag.
01:07:40	Corporal Kakouras arrives on scene.
01:10:49	Officers Bucy and Gibson exit Housing Unit India to prepare for inmate Morgan to be transported to Piedmont Medical Center.
01:11:40	Sergeant Knight exits Max II.
01:12:23	Officer Kakouras exits Max II.
01:12:55	Officer Kakouras returns to Max II.
01:14:00	Sergeant Knight exits Max II.
01:14:33	Sergeant Knight returns to Max II with the Automated External Defibrillator (AED.)
01:14:50	Sergeant Totherow exits Max II.
01:17:47	Officer Bucy returns to Max II.
01:18:30	Officer Izzard removes inmate Morgan's mat from cell.

01:20:22	It appears inmate Morgan is moved from his cell bed to the cell floor by Detention Center staff.
01:23:00	Officer Bucy exits Max II.
01:23:17	Officer Bucy returns to Max II.
01:23:38	Sergeant Knight exits Max II.
01:24:14	Sergeant Knight returns to Max II. Corporal Cole and EMS arrive on scene.
01:24:20	EMS personnel enters inmate Morgan's cell and begins life saving measures.
01:24:27	Corporal Cole exits Max II.
01:24:53	Corporal Cole returns to Max II.
01:27:44	Sergeant Knight exits Max II.
01:29:44	Sergeant Knight returns to Max II.
01:30:03	Sergeant Knight and Corporal Cole exit Max II.
01:30:33	Sergeant Knight and Corporal Cole return with privacy panel.
01:30:53	EMS supervisor and Officer Gibson arrive on scene.
01:33:31	Corporal Cole exits Max II.
01:34:33	Corporal Cole returns to Max II.
01:34:49	Corporal Cole and Officer Gibson exit Max II via recreation yard door.
01:36:50	Corporal Cole and Officer Gibson return to Max II.
01:36:57	Corporal Cole exits Max II.
01:37:24	Sergeant Knight exits Max II.
01:37:48	Corporal Kakouras exits Max II.
01:39:18	Sergeant Knight and Corporal Cole return to Max II.
01:41:05	Corporal Cole exits Max II.
01:42:15	Corporal Kakouras returns to Max II.
01:42:18	Officer Beard arrives on scene.
01:46:00	Sergeant Knight begins searching inmate Morgan's mat.
01:46:27	Officer Beard exits Max II.
01:46:57	Officer Beard returns to Max II.
01:47:20	Officer Beard exits Max II.
01:49:17	Officer Gibson exits Max II.
01:49:40	Officer Gibson enters Max II.
01:50:53	Sergeant Knight exits Max II.
01:51:10	Officer Beard enters Max II.
01:52:46	Sergeant Knight enters Max II.
01:54:26	Sergeant Knight exits Max II.
01:55:19	Sergeant Knight enters Max II.
01:59:15	Officer Beard exits Max II.
01:59:19	Corporal Kakouras exits Max II.
02:00:44	Officer Beard returns to Max II.
02:00:54	Corporal Kakouras returns to Max II.
02:01:19	Officer Beard exits Max II.

02:01:54	Officer Beard returns to Max II.
02:03:00	Sergeant Day from the York County Sheriff's Office arrives on scene with Officer Smith.
02:03:21	Officer Gibson exits Max II.
02:03:36	Sergeant Knight Sergeant Day, Corporal Kakouras, and Officer Bucy exit Max II.
02:03:51	Officers Izzard and Bennett exit Max II.
02:07:50	EMS personnel exits cell ceasing all live saving measures.
02:09:59	Officer Bucy enters Max II.
02:10:04	Officer Gibson enters Max II.
02:10:33	Corporal Kakouras enters Max II.
02:10:41	Corporal Kakouras exits Max II.
02:11:20	Officers Beard, Bucy, and Gibson begin covering inmate cell windows.
02:11:30	Sergeant Frame arrives on scene. Sergeant Knight returns to Max II.
02:11:53	Sergeant Frame and Sergeant Knight exit Max II.
02:12:46	Sergeant Day and Corporal Kakouras return to Max II.
02:12:57	Captain Hicks arrives on scene. Officer Bennet returns to Max II.
02:14:23	Officer Izzard returns to Max II.
02:14:39	Sergeant Day exits Max II.
02:14:44	Sergeant Frame returns to Max II.
02:14:49	Sergeant Knight returns to Max II.
02:14:54	Officer Gibson exits Max II.
02:15:21	Officer Gibson returns to Max II.
02:17:26	Captain Hicks exits Max II.
02:18:02	Sergeant Knight exits Max II.
02:19:24	All Detention Center personnel directly involved exit Max II.
02:25:05	Lieutenant Howley arrives on scene.
02:26:48	Captain Davies arrives on scene.
02:27:25	Lieutenant Howley exits Max II.
02:29:13	Nurse Cannon arrives on scene. Sergeant Day returns to Max II.
02:29:56	Nurse Cannon exits Max II.
02:31:06	Officer Wallace enters Max II to conduct guard tour. Lieutenant Howley returns to Max II.
02:32:47	Officer Wallace exits Max II.
02:33:43	Lieutenant Howley and EMS Supervisor exit Max II.
02:39:15	Deputy Coroner Butch Lindsay arrives on scene and begins examining the scene. Lieutenant Howley returns to Max II.
02:44:22	Captain Hicks and Nurse Cannon return to Max II.
02:45:10	Captain Hicks exits Max II.
02:45:59	Lieutenant Howley exits Max II.
02:47:33	Captain Hicks and Lieutenant Howley enter Max II.
02:49:19	Captain Hicks and Sergeant Frame exit Max II.
02:58:44	Nurse Cannon exits Max II.

03:00:13	Officer Wallace enters Max II to conduct guard tour.
03:03:25	Officer Wallace exits Max II.
03:11:55	Detective Pete Branham from the York County Sheriff's Office arrives on scene. Captain Hicks returns to Max II.
03:13:24	Captain Hicks exits Max II.
03:13:46	EMS Supervisor and Captain Hicks return to Max II.
03:19:20	Chief Arwood arrives on scene.
03:24:55	Captain Guzman arrives on scene.
03:28:25	Chief Arwood and Captain Hicks exit Max II.
03:34:35	Sergeant Frame returns to Max II.
03:35:05	Lieutenant Howley exits Max II.
03:36:54	Officer Wallace enters Max II to conduct a guard tour.
03:39:55	Officer Wallace exits Max II.
03:48:36	Captain Guzman and Sergeant Day exit Max II.
03:49:29	Captain Davies exits Max II.
03:53:57	Captain Davies returns to Max II.
03:58:02	SLED Agent Melissa Wallace arrives on scene. Captain Guzman returns to Max II.
04:03:00	EMS personnel and Captain Guzman exit the scene.
04:05:10	Chief Arwood and Captain Hicks return to Max II.
04:08:32	Captain Davies exits Max II.
04:10:04	Captain Davies and Guzman return to Max II.
04:10:42	Captain Hicks exits Max II.
04:11:44	Captain Hicks returns to Max II.
04:12:05	Captain Hicks exits Max II.
04:12:42	Captain Hicks returns to Max II.
04:12:47	Officer Wallace returns to Max II.
04:13:50	Inmate Marcus Center is removed from cell for questioning.
04:14:35	Officer Wallace begins guard tour in Max II.
04:15:35	Inmate Marcus Center is returned to cell to gather paperwork.
04:17:40	Officer Wallace exits Max II.
04:31:15	Inmate Marcus Center is returned to his cell.
04:34:03	Inmate Jerry Cousar is removed from his cell for questioning.
04:35:53	Inmate Jerry Cousar is returned to his cell.
04:40:00	SLED Agent Michelle Johnson arrives on scene.
04:40:08	Captain Hicks exits Max II.
04:40:32	Captain Hicks returns to Max II.
04:42:20	Chief Arwood returns to Max II.
04:42:36	Captain Hicks exits Max II.
04:43:47	Captain Hicks returns to Max II.
04:45:48	Chief Arwood and Captain Davies exit Max II.
04:47:55	SLED Agent Wallace exits Max II.

04:49:33	SLED Agent Johnson exits Max II.
04:50:56	Captain Hicks exits Max II.
04:57:30	Officer Wallace returns to Max II to conduct guard tour.
04:58:50	SLED Crime Scene Technicians Kerry Cooper and Nick Sprouse arrive on scene. Sergeant Totherow returns to Max II. SLED Agents Wallace and Johnson return to Max II.
04:59:19	Chief Arwood, Captain Davies, and Captain Hicks return to Max II.
04:59:41	Sergeant Totherow exits Max II.
05:00:08	Officer Wallace exits Max II.
05:02:55	Agents Cooper and Sprouse begin processing the scene.
05:04:05	Chief Arwood, Captain Hicks, and SLED Agents Wallace and Johnson exit Max II.
05:18:45	CBC employees Mike Hill and Marcel Schrijvers arrive on scene. Officer Gibson returns to Max II.
05:22:11	Officer Gibson exits Max II.
05:27:22	Sergeant Frame exits Max II.
05:29:06	Sergeant Frame returns to Max II.
05:32:30	Agents Cooper and Sprouse collect finger and palm prints from inmate Morgan while on transport cart.
05:34:06	Captain Davies exits Max II.
05:35:34	Captain Davies returns to Max II.
05:40:30	Officers Cintron and Mobley enter Max II to conduct guard tour.
05:42:12	Officers Cintron and Mobley exit Max II.
05:51:28	Inmate Morgan is removed from Housing Unit India by CBC employees Hill and Schrijvers. Sergeant Frame and SLED Agents Cooper and Sprouse exit Max II.
05:57:24	Inmate Morgan's body is placed into the Coroner transport vehicle.
05:58:25	Corner transport vehicle exits the sallyport.

SLED Response

SLED agents Melissa Wallace and Michelle Johnson responded to the facility as well as Crime Scene Technicians Kerry Cooper and Nick Sprouse.

B-Team Follow up

Chief Arwood and Captain Hicks contacted Eric Skidmore with the South Carolina Law Enforcement Assistance Program (SCLEAP) in order to schedule a post-critical debriefing with the staff that were involved in this incident. That debriefing was scheduled and held on Tuesday December 5, 2017 from approximately 10:00 a.m. to 12:00 p.m..

Conclusion

After reviewing the video surveillance and interviews with all of the staff involved, it is my conclusion that all Detention Center staff provided the appropriate medical care in a timely manner to inmate Morgan as required. Inmate Morgan did not exhibit any signs of medical distress upon returning from the Rock Hill Police Department. Inmate Morgan was physically seen at approximately 0001 by Officer Gibson where he signed for his inmate mail. Inmate Morgan used his in cell intercom at approximately 0029 to request two inmate request forms from Detention Center staff. Inmate Morgan was discovered at approximately 0101 by Officers Bennett and Gibson. Inmate Morgan was in distress (but still breathing.) CPR and life saving measures were immediately begun by Detention Center staff once it was determined inmate Morgan was unresponsive. CPR and life saving measures were taken continuously until EMS personnel arrived on scene and later pronounced him deceased.

During my investigation, it was determined that staff members failed to conduct a full wellbeing check at a minimum of every thirty minutes. Staff members only conducted one full wellbeing check during the hours of 0000-0100. It is my determination that Officers Bennett, Beard, and Gibson did violate the following York County Sheriff's Office, Detention Division, Policies and Procedures:

1000.07 IV.C.1 Inmate Supervision

Classification

EXONERATED

The Incident occurred, but staff acted quickly and performed life saving measures in an attempt to preserve life.

SUSTAINED

During the course of my investigation it was determined that staff members did violate York County Sheriff's Office, Detention Division, Policies and Procedures by failing to conduct a full wellbeing check. However, this violation did not contribute to the incident. Proper wellbeing checks would not have led to an alternate outcome of the incident.

NARRATIVE

On the above date and approximate time, I reporting officer Milton E. Gibson was assigned to Housing Unit India as roving officer. Officer Krystina Bennett and myself went into Max II to start a guard tour of the unit. As we entered the unit inmate Center, Marcus Alexander (Jacket # 1485141A Cell I58) stated "CO you need to check on my neighbor he is hyperventilating". I went to cell I57 and observed inmate Morgan, Jonathan Paul (jacket # 117759A Cell I57) laying on his bed shaking and making gurgling sounds, gasping for breath and had white froth around his mouth. I called inmate Morgan's name several times and he did not respond. I then called a 10-33 (medical emergency) Housing Unit I cell I57. Master control specialist Laney repeated the "10-33 Housing Unit India all avaliable units respond". Sgt. Knight and officer Bucy responded and came to Max II while LBO Kakouras remained with the inmate being escorted to his cell. Housing unit India control opened the door to inmate Morgan's cell (I57) officers Bucy, Bennett and myself entered the cell at this time. Officer Bucy called out to inmate Morgan several times and inmate Morgan was unresponsive.Officer Bucy performed a sternum rub on inmate Morgan at this time. Sgt. Arthur Totherow arrived with the medical bag at approximately 0104 hrs and officers Ciji Izzard and LBO Kokarus also arrived at this time.

NARRATIVE

Officer Bucy performed 2 more sternum rubs on Inmate Morgan and Inmate Morgan made an audible response but continued to shake and gasp for breath. Officer Kakouras broke an amonia capsule and handed it to officer Bucy. Officer Bucy placed the capsule under Inmate Morgan's nose and inmate Morgan responded and turned away and had an audible response. At this time Sgt. Totherow then attempted to get Inmate Morgan's vital signs but was unable to get a reading. Sgt. Totherow then ordered officer Bucy and myself to go get our gear and be ready to go to the hospital when EMS arrived and ready to transport Inmate Morgan to the hospital. I reported to booking when I was ready to go and was informed by Booking Officer Smith that Inmate Morgan had stopped breathing and Sgt. Totherow had told him to report back to HU-I. I remained in booking to escort EMS to HU-I when the arrived. master Control Sprcialist Cole was in booking when EMS arrived and escorted them to HU-I at approximately 0122 Hrs. I remained in booking and escorted EMS supervisor Niki Adams to HU-I.

I remained in HU-I until EMS ceased to attempt to revive Inmate Morgan at 0155 Hrs and Capt Hicks told me to leave the unit.

All actions were done for the safety and security of the facility the staff and inmates.

☐ ORIGINAL REPORT ☒ SUPPLEMENTAL REPORT ☐ ADDITIONAL VICTIMS ☐ ADDITIONAL SUBJECTS ☐ WITNESSES

NARRATIVE

On 11/28/17 at approximately 0101 hours I reporting officer Beard while in the officers console of housing unit India heard officer Gibson call for a 10-33(Medical emergency) in housing unit India Max II room 57. I saw officers Bucy, Kakouras, and Sgt. Knight arrive within seconds as they were returning an inmate to housing unit India . I opened the door to the unit and to room 57 in Max II so officers Bennett, Bucy,and Gibson could respond to the emeregency and Kakouras stayed with the other inmate in the sallyport. I then saw officer Izzard and Sgt. Totherow who was carrying the medical response bag arrive to the unit. Officers Kakouras and Izzard returned the other inmate to his cell in a different unit and then responded back to Max II. I was told by Sgt. Knight to call master control and have them send an ambulance that they weren't getting a pulse from inmate Morgan, Jonathan Paul (Jacket# 117759A). Sgt. Knight then he grabbed the A.E.D. and returned to room 57. I called Cpl. Laney and informed him of the situation, and he stated he "got it". Officer Cole arrived a few minutes later with E.M.S. personal and reported to the officers console. I was informed by Cole to call master control and to have them call a code white(Manditory Facility Lockdown). I was told to have officer Wallace,R leave Charlie block and report to housing unit India. Officer Wallace was needed in the officers console in preparation for the transportation of inmate Morgan to the hospitial by Bucy and Gibson. Officer Wallace arrived to housing unit India in the officers console where he relieved me so I could see if any additional help was needed in cell 57. When I arrived in the cell I saw the mattress had been thrown out and inmate Morgan was on the floor and a machine was giving him chest compressions. While on the floor inmate Morgan had large amounts of blood coming out of his nose and mouth. While in the cell the paramedic Nicki Adams called inmate Morgans death at 0155 hours. After medic Adams called the time of death she asked "when was the last time someone had spoken to him". I informed her he had requested 2 request forms about 10 minutes before officers Gibson and Bennett entered the unit. The medic then made a statement saying there was so much blood it looked as if he had swallowed a razor, so I went to check the razor log, and he didn't use it on 11/27/17 and his razor was intact in the razor box. All actions taken for the safety and security of the inmates, the officers and the facility.

☐ ORIGINAL REPORT ☒ SUPPLEMENTAL REPORT ☐ ADDITIONAL VICTIMS ☐ ADDITIONAL SUBJECTS ☐ WITNESSES

NARRATIVE

On the above date and approximate time I, reporting officer Bennett. K, and Officer Gibson. M were doing a guard tour of housing unit India Max 2 when inmate Center, Marcus Alexander (Jacket# 1485141) HU-I58 said to us " you guys need to check on my neighbor , he's not feeling too well". Gibson and myself went to I57 and witnessed Inmate Morgan, Jonathan Paul (Jacket#117759) HU-I 57 laying in his bed on his back. The inmate was wearing only boxers and had no blankets or sheets covering him. Morgan seemed to be gasping for air,shaking and moving his arms, while making gurgling noises. The inmate appeared to have a white foam like substance around his mouth. We began calling his name and Morgan did not respond. Officer Gibson then called a code 10-33 medical emergency over the radio at approximately 0101 hours. Master control specialist Cole repeated the code for all available units to respond. Transport officer Bucy was already in the unit escorting another inmate and he was the first to respond. HU India control Officer Beard. D opened I57 and Bucy, Gibson, and I entered. Bucy called out to Morgan and attempted to get his attention by speaking to him. Morgan was unresponsive. Morgan was still shaking and gurgling. T/O Bucy apporached Morgan and applied a sternum rub to the inmate to which he reacted slightly to. At that moment Seargant Knight arrived and began calling to Morgan while Bucy applied another sternum rub. At that point Seargant Totherow entered I57 to get Morgans vitals. Totherow attempted to get the vitals but they would not read via the equipment. Lead booking Officer Kakouras entered with a smelling salt and Bucy used it on Morgan to get yet only a slight response. At this point EMS was activated and Officer Bucy and Gibson were preapring to escort Morgan to the hospital. Sgt Totherow, Officer Izzard, Officer Kakouras and myself were in I57 when inmate Morgan stopped moving completely and appeared to stop breathing. Sgt Totherow began performing CPR on Inmate Morgan. Totherow was the first officer to begin breaths while Officer Izzard began chest compressions. After a few rounds I switched with Sgt Totherow and I assisted giving breaths for several rounds while officer Izzard, Kakoras and Bucy switched out doing chest compressions. Sgt Knight arrived with an AED and prepared it while we continued the CPR. When we applied the AED it instructed us that no shock was needed and to continue CPR. EMS arrived and assisted with several rounds of CPR while they prepared their equipment.Morgan appeared blue in color in the face,arms and hands and was completely unresponsive the entire time after EMS arrived. I remained in I57 with EMS and all the other reported officers until Morgan was pronounced dead at 0155 hours. All actions taken were for the safety and security of all staff, inmates, and the facility.

☐ ORIGINAL REPORT ☒ SUPPLEMENTAL REPORT ☐ ADDITIONAL VICTIMS ☐ ADDITIONAL SUBJECTS ☐ WITNESSES

NARRATIVE

On 11/28/17 at approximately 0100 hours I officer Bucy responded to a 10-33(Medical Emergency) in Housing Unit I. Myself, Sergeant Knight, and Officer Kakouras were at that time escorting an inmate to Housing Unit I and were standing outside door 6I00K. I stated I would respond first and Sgt. Knight and officer Kakouras would finish escorting the inmate. I entered Max II and saw officer Bennett, and Gibson standing outside cell door 57. As I approached the window I could see inmate Morgan actively seizing and gasping for air, I upholstered my Taser when the cell door was opened as a precaution if inmate Morgan was faking and attacked the officers. As I approached inmate Morgan and called out his name several times, receiving no response. I then applied a sternum rub with my right hand and inmate Morgan moved and made an audible groan in response. While waiting for assistance to arrive, I twice more used the sternum rub on inmate Morgan, receiving similar responses each time. At this time Sergeant Totherow entered the cell with the medical bag. As Sgt. Totherow attempted to get vital signs I applied a smelling salt capsule, from officer Kakouras, on inmate Morgan. Inmate Morgan gasped several times and responded to the salt. At this time Sgt. Totherow was unable to get any vital signs on inmate Morgan and stated Inmate Morgan would need to be transported to the hospital. Myself and officer Gibson then left the unit to gather the necessary gear for transportation. I was on the Building III Booking Counter with officer Smith preparing the Medical Transportation Sheet. At this time Sgt. Totherow entered the Booking area and stated that inmate Morgan was not breathing, and CPR was being performed. I asked Sgt. Totherow if I should respond to I Block to assist with CPR. Sgt. Totherow instructed me to respond to I Block and he would escort EMS when they arrived. I ran back to I Block, and entered cell 57. The AED was on inmate Morgan's chest and Sergeant Knight was performing chest compressions, while inmate Morgan was on his bed on top of his mattress. I said that we should place inmate Morgan on the ground with nothing under him to perform CPR. I then assisted in moving inmate Morgan to the ground and began assisting with chest compressions. I am unsure how many cycles of compressions I went through before Sgt. Knight relieved me. I again started compressions after several cycles and continued until EMS arrived. I performed another 2-3 cycles of chest compressions before being relieved by EMS. I again started compressions after the Paramedic called for a switch and continued until the automated chest compression machine was secured in place. About this time I could see that blood was beginning to leak from inmate Morgan's mouth. I then assisted Paramedic Osborn with placing an IV into inmate Morgan's right leg. I then held the IV bag in the air since we were unable to hang the bag in the cell. While EMS was attempting to clear inmate Morgan's airwave blood sprayed out of his mouth, into the air, and onto one of the Paramedics. She then asked if he had swallowed a razor blade. I informed her that the only time he had access to a razor in our facility was at 0600. I then stated that the officers outside the cell should check the razors and log for the morning. Inmate Morgan was found to have had a razor that was intact, inside the officers console. I stayed in the cell providing any information or help to the Paramedics I could offer until approximately 0155 when inmate Morgan was pronounced dead, by EMS, and the Coroner was called. At this time Sergeant Day from the Sheriffs officer entered the Housing Unit and began taking statements from myself and the other officers involved. After giving my statement, and name I again entered Max II and began assisting in covering all the cell windows with white garbage bags. When finished, Myself and other officers involved were dismissed back to Booking to begin writing our reports. All actions taken for the safety and security of the facility, staff, and inmates.

NARRATIVE

On 28 November 2017 at approximately 0115 while going to Housing Unit Echo to start Officer Breaks, I Cpl. Cole was stopped by Sgt. Totherow and was informed to report to the booking area, due to the medical emergency that was going on in Housing Unit India. I then proceeded to booking and the intake salleyport area to wait on and escort EMS when they arrived on scene. At approximately 0122 EMS arrived in the salleyport and I escorted them to Housing Unit India Max II. Once in Housing Unit India EMS began taking over medical procedures on Inmate Morgan, Jonathan. Once EMS was secure and working on Inmate Morgan, I Cpl Cole returned to the booking area and then to Master Control which is my assigned post. All things done were for the safety and security of this facility, its staff and its inmates.

NARRATIVE

On 11/28/2017 at approximate 0101 hrs, I Reporting Officer C. Izzard responded to a 10-33 Medical Emergency, in Housing Unit India, Cell I-57. When I arrived I assisted Corporal C. Kakouras with placing another inmate in his cell in Special Needs. Immediately after, I and C. Kakouras responded to the 10-33 Medical Emergency. When I responded, I observed Inmate Morgan, Jonathan Paul (Jacket#117759A) lying in his bed making gurgling noises. I observed Ofc. Bucy conducting 3 Sternum rubs and I observed slight movement from Morgan. Bucy then applied 1 ammonia tablet and I saw movement. Sergeant Totherow attempted to get Morgan vitals several times, but could not get a registered reading. Totherow then checked for a pulse and stated "its light". At approximate 0110hrs Sergeant Totherow and I began CPR on Morgan. I began 30 chest compressions and Sergeant Totherow began with 2 rescue breaths. While doing CPR, I observed that Morgan was blue in the face, hands and feet and there was no movement in his eyes. After 3 cycles of CPR, I was relieved by Officers Kakouras and Bennett. Kakouras started 30 chest compressions and Bennett started with 2 rescue breaths. After several rotations of chest compressions and rescue breaths Sergeant Knight came in with the AED. Sgt. Knight placed the AED on Morgan's chest and it indicated "no shock needed, continue CPR". At approximate 0125 hrs. EMS came on scene and they took over the medical aspect of the situation. After EMS took over I remained in the cell while they continue to do CPR. At approximate 0155 hrs they stop CPR and he was pronounced deceased. All actions taken were for the safety and security of the staff, inmates and facility.

☐ ORIGINAL REPORT ☒ SUPPLEMENTAL REPORT ☐ ADDITIONAL VICTIMS ☐ ADDITIONAL SUBJECTS ☐ WITNESSES

NARRATIVE

On 11/28/2017 at approximately hours 0058 hours I Corporal Kakouras along with Sergeant Knight, and Transportation Officer Bucy were escorting inmate Cunningham, Larry, James Jr. back to his cell located in housing unit India. When we arrived to door 6IOOK at approximately 0101 hours Officer Gibson used his hand held radio and called at 10 code 10-33 (Medical Emergency) in housing unit India cell I-57. When door 6IOOK was opened Sergeant Knight and Transportation Officer Bucy entered cell I 57 where inmate Morgan, Jonathan Paul was housed. I stayed out in the hallway with inmate Cunningham, until Sergeant Totherow and Officer Izzard arrived to the unit. Officer Izzard assisted me in placing inmate Cunningham back into his cell, we then entered cell I 57 to assist with the medical emergency. When I entered the cell, transportation Officer Bucy was performing a sternum rub on inmate Morgan. Transportation Officer Bucy asked for my ammonia tablet, I then gave Transportation Officer my ammonia tablet which he placed under inmate Morgan's nose. I saw a white substance around inmate Morgan's lips. Inmate Morgan was unresponsive when we called his name and he was making an gurgling noise. Transportation Officer Bucy and Officer Gibson were told to get ready to transport Inmate Morgan to the hospital by Sergeant Totherow. Sergeant Knight went into the officer console to notify master control to call EMS, Inmate Morgan than stopped making the gurgling noise. Sergeant Totherow checked for an pulse on Inmate Morgan's right wrist and stated "its light". I Then went to the Officer Console and informed Sergeant Knight that inmate Morgan's pulse was light. When I entered inmate Morgan's cell at approximately 0110 hours it appeared that inmate Morgan stopped breathing and his face was changing to a bluish color, it was at this time CPR was started. Officer Izzard performed thirty chest compressions, and Sergeant Totherow preformed two rescue breathes. They continued CPR for two more cycles. I then relieved Officer Izzard and preformed thirty chest compressions for multiple cycles. Transportation Officer Bucy arrived back to the cell, we then moved Inmate Morgan to the floor. I was relieved by Transportation Bucy, who continued chest compressions. I relieved Officer Bennett and preformed 2 rescue breathes for multiple cycles. Sergeant knight then retrieved the AED device from the Officer Console, while we continued CPR. Once the AED was connected it gave a reading of "no shock needed continue CPR." I continued with the rescue breathes, and at approximately 0124 hours EMS was escorted to cell I 57. After multiple cycles of preforming rescue breathes I was relieved by one of the EMS first responders. I then relieved another EMS first responders and preformed thirty chest compressions for multiple cycles, until I was relieved by another EMS first responder. I observed a red substance which appeared to be blood coming from inmate Morgan's mouth. At approximately 0154 hours EMS notified dispatch of the time of death. It was at that time everyone exited the cell. All actions that were taken were for the safety and security of the facility, inmates, and officers.

☐ ORIGINAL REPORT ☒ SUPPLEMENTAL REPORT ☐ ADDITIONAL VICTIMS ☐ ADDITIONAL SUBJECTS ☐ WITNESSES

NARRATIVE

On November 28th, at approximately 0101 hours, a 10-33 (Medical Emergency) was called by Officer M. Gibson in Housing Unit India for Inmate Morgan, Jonathan Jacket#117759A in Cell I-57. Reporting Sgt. B. Knight was outside of the unit escorting another inmate back to his cell from Building III Booking with Officers C. Bucy and Cpl. C. Kakouras. Officer Bucy and myself responded to Cell I-57 while Cpl. Kakouras returned the other inmate back to his cell. Once inside Cell I-57, I discovered that Inmate Morgan was breathing but not responding to the officers on scene commands and appeared to be in the middle of a possible seizure. Officer Bucy gave several sternum chest rubs to Inmate Morgan which he reacted to by moving his arms and groaning. Officer Bucy then used an ammonia tablet supplied by Cpl. Kakouras. Inmate Morgan coughed and reacted to the ammonia tablet as well but would not answer officers when being spoke to. Sgt. Totherow arrived on scene with the red medical bag from the Building III Supervisor's Office. Sgt. Totherow attempted to get Inmate Morgan's vitals with the blood pressure machine and pulse oxygen sensor. We could not get a reading on either machine for Inmate Morgan's vitals. I went inside the control booth of Housing Unit India to notify Master Control to call EMS and to give them an update on the situation. As I was walking out of the console, Cpl. Kakouras notified me that CPR was started on Inmate Morgan. I ran back to the Housing Unit India Control Booth to retrieve the A.E.D. machine. Once back inside Cell I-57, I turned the A.E.D. machine on and followed the steps given. I attached the pads to Inmate Morgan's chest and waited for the A.E.D. machine to evaluate Inmate Morgan. The A.E.D. machine stated that a shock was not advised and to continue CPR. CPR cycles continued and were rotated by Cpl. Kakouras, Officer Bucy, and myself while Officer Bennett was giving breaths. EMS arrived on scene at approximately 0122 hours and began to provide further medical assistance and assumed all medical aspects of the situation. At approximately 0154 hours, time of death was called by EMS in to dispatch. I continued to communicate with Sgt. Totherow who was in the Building III Supervisors Office. Sgt. Day with the York County Sheriff's Office arrived on scene to take statements of the incident. The York County Detention Center Command Staff arrived on scene. Captain Hicks stated that all responding officers were relieved from the area to begin all necessary paperwork. The above actions were taken for the safety and security of the Inmates, Staff, and Facility.

NARRATIVE

On 11/28/2017 at about 0102 hrs I, Sgt. Totherow did respond to a radio call in HU-I for a medical emergency. I did bring the red medical bag from bookingIII in case it was needed. When I entered HU-I I was able to see the emergency was in in MaxII cell 57 and entered the room I saw Inmate Morgan lying on his bed. Morgan was on his back with his arms at his side at first then locked them bent at the elbow fists toward the ceiling and there was what appeared to be a white foam on his lips . I asked the inmate several questions with no verbal response. I tried to take his vitals but due to him struggling could not get a reading. While removing the blood pressure cuff and O2 scanner I did notice that the inmate's fingernail beds had changed color turning blueish. I performed a sturnum burn and thought I heard air come fro the inmate's mouth. I put my head near the inmate's mouth and could hear nothing and instructed the other officers present that we would begin CPR at this time. I instructed the officers in the cell to help me move the inmate so we could perform CPR more efficiently. Officer Izzard started chest compressions and I started performing breaths at this time using my CPR microshield. Sgt. Knight retreived the AED unit from the officer console. I left the housing unit after 2 cycles of CPR to notify Captain Davies of the situation. While on the phone with Davies EMS arrived and began working on the inmate and I was notified they were getting no responses from the inmate so I began to notify all members of the command staff. After the command staff was notified I then assisted Officer Smith with covering the cell windows in booking III. All actions were taken for the safety and security of the facility, the staff and the inmates.

Authorities investigate death at York County Detention Center

Posted: Nov 29, 2017 / 12:01 AM EST
Updated: Nov 29, 2017 / 12:01 AM EST

SHARE

YORK COUNTY, SC (FOX 46 WJZY) — A man was found dead at the York County Detention Center early this morning, according to the York County Sheriff's Office.

Around 1:00 a.m. on Tuesday, a detention officer making rounds was told that an inmate was breathing abnormally by another inmate.

The detention officer immediately called medical emergency staff, administered CPR/first aid and notified Piedmont EMS.

The victim has been identified as 28-year-old Jonathan Paul Morgan of Rock Hill. He had been brought to the detention center around 11:00 p.m. on Monday.

Morgan had originally been arrested in September for petty larceny, resisting police and furnishing contraband in prison.

The death is still being investigated by South Carolina Law Enforcement and the York County Sheriff's Office.

The York County Coroner's Office is conducting an autopsy, but no foul play is expected.

No other information has been released at this time.

YORK COUNTY

A man died early Tuesday morning while in custody at the York County Detention Center, according to the York County Coroner's Office.

The man has been identified as 28-year-old Jonathan Paul Morgan of Rock Hill, York County Coroner Sabrina Gast said in a statement.

York County Sheriff's Office spokesman Trent Faris said in a statement that an inmate notified a detention officer that Morgan was "reportedly breathing abnormally."
