INTERNAL INVESTIGATION-IA-2018-006

TO: John C. Hicks Jr. Chief Jail Administrator

FROM: Lucas N. Frame, Office of Professional Standards

SUBJECT: Inmate Ingram, Oxavria Lenard (Jacket #53789A)

DATE: June 7, 2018

Allegations

At approximately 1935 on Friday May 18, 2018 Chief John Hicks contacted me by telephone and instructed me to come to the facility due to an inmate being unresponsive/not breathing. When I arrived at the facility at approximately 2000, inmate Ingram, Oxavria (Jacket #53789A) was laying on the floor of his cell in Housing Unit India, cell 53. Emergency Medical Services (EMS) personnel and other Detention Center staff were present on the scene, but had ceased all life saving measures at that time.

Investigation

Initial Interview with Detention Center Staff

On May 18, 2018 at approximately 2120, I interviewed Officers Michael Plyer, Stacey Sexton, Cristos Kakouras as well as Nurse Leigh Bell regarding the above allegation. Officer Sexton began by explaining that she was delivering the med box to Housing Unit India when Officer Hodges asked if she would mind checking on the inmate in cell 53. Officer Sexton stated that she approached cell 53, which was occupied by inmate Ingram, Oxavria, and attempted to get his attention by knocking on his cell door with her hand and eventually lightly kicking it with her foot. Officer Sexton stated that at no point did inmate Ingram respond to her, which prompted her to seek and retrieve Officer Plyler to assist. Office Plyer stated that upon Officer Sexton's request, he approached inmate Ingram's cell with Officer Sexton and attempted to get a response, but again was unable to. At that time Officer Plyler stated he called a 10-33 (Medical Emergency) via his radio and asked for inmate Ingram's cell to be opened. Officer Sexton and Plyler then stated that they entered inmate Ingram's cell and noticed that he was lying on his stomach under his blankets on top of his bed. Officer Plyler stated that he attempted to shake inmate Ingram in order to get a response, but still did not receive a response from inmate Ingram. Officer

Sexton stated that she raked inmate Ingram's foot with her finger in another attempt to elicit a response, but again that failed.

At this time Corporal Kakouras arrived on scene and began assisting. Corporal Kakouras assisted in rolling inmate Ingram on his back. Corporal Kakouras and Officer Plyler then realized that inmate Ingram did not appear to be breathing, prompting Officer Plyler to call a code Blue (Unresponsive) via his radio. Corporal Kakouras stated that he and Officer Plyler then moved inmate Ingram to his cell floor and began performing CPR. A short time later, Nurse Bell arrived on scene and began assisting officers with life saving measures. Nurse Bell stated that she called for the crash cart once she realized that inmate Ingram was in fact not breathing. Nurse Bell stated that the AED was used on inmate Ingram, but it advised no shock. Detention Center staff continued life saving measures until EMS arrived on scene and continued assisting thereafter.

Follow Up Interview with Detention Officer II Michael Plyer

On May 29, 2018 at approximately 1610, I interviewed Officer Michael Plyler regarding the above allegation. I asked Officer Plyler to walk me through the sequence of events regarding the above incident, to include any actions taken by him. Officer Plyler stated that he was asked by Officer Sexton to come to Max II in Housing Unit India in order to assist her with checking on an inmate. Officer Plyer stated that he approached inmate Ingram's cell and knocked on his window in an attempt to elicit a response from him. Officer Plyler explained that inmate Ingram never responded nor did he make any movements indicating that he was responsive. At this time, Officer Plyler stated that he called a 10-33 (Medical Emergency) using his radio and then called for Master Control to access inmate Ingram's cell door. Officer Plyler stated that upon entry into inmate Ingram's cell, he was lying face down under his blankets. He went on to explain that both he and Officer Sexton made physical contact with inmate Ingram in an attempt to elicit a response from him. Officer Plyler stated that he shook inmate Ingram's left shoulder approximately two (2) times, but never received a response. Meanwhile, Officer Sexton took her index finger and ran it down inmate Ingram's foot in order to again elicit some sort of response, but this too failed.

Officer Plyler stated at this time Corporal Kakouras arrived on scene and began assisting he and Officer Sexton. Officer Plyler stated that he and Corporal Kakouras rolled inmate Ingram onto his back and quickly determined that he was not breathing. Officer Plyler immediately called a Code Blue via his radio. He stated that with the assistance of Corporal Kakouras, they moved inmate Ingram from his bed to the cell floor so they could begin CPR. Officer Plyler stated that he began chest compressions on inmate Ingram while Corporal Kakouras administered rescue breaths. Officer Plyler stated that shortly after beginning CPR on inmate Ingram, Nurse Bell arrived on scene and began to assist them. Officer

Plyler stated that they began taking turns conducting chest compressions on inmate Ingram until EMS arrived on scene. Officer Plyler estimated that they did approximately 13-20 cycles of CPR prior to EMS arriving on scene. Officer Plyler stated that Nurse Bell asked for the emergency crash cart to be brought up to inmate Ingram's cell as well as the AED. He explained that the AED was placed on inmate Ingram, but that it advised no shock. Officer Plyler stated that a short time later he was instructed by Sergeant Totherow to assist with covering the inmate windows in Max II.

Follow Up Interview with Detention Officer II Stacey Sexton

On May 29, 2018 at approximately 1705, I interviewed Officer Stacey Sexton regarding the above allegations. I asked Officer Sexton to walk me through what happened during the above referenced incident, to include any actions she took. Officer Sexton began by explaining that she was assisting with returning the med box to Housing Unit India when Officer Hodges asked if she would mind checking on the inmate in cell 53. Officer Sexton she agreed and proceeded to head to Max II. Upon arriving to cell 53, she noticed that the inmate, later identified as inmate Ingram, was laying under his blanket with only his feet exposed. Officer Sexton stated that she knocked on inmate Ingram's cell door with her hand and foot several times, but was unable to get inmate Ingram to respond. Officer Sexton explained that she called over the radio for the cell door to be opened, but due to security measures, the door was not opened. She then went to retrieve Officer Plyler from the hallway outside of Housing Unit India to assist her. Officer Sexton stated that both Officers approached the cell door and again attempted to get inmate Ingram to respond by knocking on his cell door and calling for him, but never did get a response. Officer Sexton then explained that Officer Plyler called a 10-33 (Medical Emergency) over his radio. Officer Sexton then stated that she once again called for his cell door to be opened via her radio. Upon entering the cell, Officer Sexton stated that they called for him several times and eventually she used her finger and touched it to inmate Ingram's foot, but that too failed to gain a response. She stated that Officer Plyler shook inmate Ingram's shoulder several times as to wake him up, but again was unsuccessful.

At this time, Officer Sexton stated that Corporal Kakouras arrived on scene and began assisting them. Corporal Kakouras and Officer Plyler rolled inmate Ingram onto his back and determined that he was not breathing, which prompted Officer Plyler to call a Code Blue over his radio. Officer Sexton explained that Corporal Kakouras and Officer Plyler moved inmate Ingram from his bed to the cell floor so they could begin CPR on him. Officer Sexton stated that shortly after beginning CPR, Nurse Bell arrived on scene and began assisting Corporal Kakouras and Officer Plyler. Officer Sexton stated that she assisted Nurse Bell in placing the AED on inmate Ingram. She explained that AED was placed on inmate Ingram, but that it did not advise a shock. Instead it instructed them to continue CPR. A short time later, the EMS supervisor arrived at the facility so Officer Sexton headed to booking to escort him

to the scene. Officer Sexton stated that the EMS supervisor attempted to utilize a medical device on inmate Ingram, but was unable to due to the battery being dead. She went on to explain that the EMS supervisor was able to place an IV into inmate Ingram's leg. A short time later, more EMS personnel arrived on scene prompting Sergeant Totherow to instruct Officer Sexton to head to booking to begin her report.

Interview with Master Grade Sergeant Arthur Totherow

On May 29, 2018 at approximately 1800, I interviewed Sergeant Arthur Totherow regarding the above allegations. I asked Sergeant Totherow to walk me through the events that occurred during the above incident, to include any actions he took. Sergeant Totherow explained that he responded to a 10-33 (Medical Emergency) in Housing Unit India. While responding to the medical emergency, he heard Officers on scene call a Code Blue, indicating they had an inmate who was not responsive. Sergeant Totherow explained that upon arriving on scene, Officers Kakouras and Plyler were already performing CPR on inmate Ingram. Sergeant Totherow stated that he assisted Officers Kakouras and Plyler as well as Nurse Bell with continued CPR on inmate Ingram by first using his face shield to provide rescue breaths then later by using a breathing assistance device to provide rescue breaths. Sergeant Totherow explained that AED was utilized on inmate Ingram, but that it did not advise a shock so they continued CPR. He went on to explain he assisted the EMS Supervisor by squeezing the IV fluid bag that was inserted into inmate Ingram. Sergeant Totherow ended by saying that he continued assisting both EMS personnel and Officers with life saving measures until the time of death was called by EMS and all life saving measures ceased.

Interview with Watch Commander Khatari McMillan

On May 29, 2018 at approximately 1815, I interviewed Lieutenant Khatari McMillan regarding the above allegations. I asked Lieutenant McMillan to walk me through the events that occurred during the above referenced incident, to include any actions he took. Lieutenant McMillan explained that he heard officers call a 10-33 (Medical Emergency) in Housing Unit India, so he immediately grabbed the medical bag from the supervisor's office and began to respond. While responding, he heard a Code Blue being called indicating there was an inmate who was potentially not breathing. Upon arrival to the scene, Lieutenant McMillan saw Officers Kakouras and Plyler engaged in CPR on inmate Ingram. Lieutenant McMillan stated that he immediately notified Master Control via his radio to contact EMS and have them report to the facility. Lieutenant McMillan stated he arrived on scene at almost the same time as Nurse Bell who then asked him to retrieve the crash cart from the officer's console. Lieutenant McMillan stated he and Officer Swenor retrieved the crash cart and proceeded to carry it upstairs to inmate Ingram's cell. Lieutenant McMillan explained that as the other Officers on scene continued CPR

on inmate Ingram, he began covering cell windows in Max II. He then stated that after completing this task, he reported to booking to begin notifying the Command Staff as to what was occurring. Lieutenant McMillan ended by saying that after making the necessary notifications, he returned to Max II, but that EMS had already ceased all life saving measures by that time.

Follow Up Interview with Lead Booking Officer Cristos Kakouras

On May 29, 2018 at approximately 1815, I interviewed Corporal Cristos Kakouras regarding the above allegations. I asked Corporal Kakouras to walk me through the sequence of events regarding the above referenced incident, to include any actions taken by him. Corporal Kakouras explained that he responded to a 10-33 (Medical Emergency) in Housing Unit India. Upon arrival to the emergency, Officers Plyler and Sexton were already on scene. Corporal Kakouras stated that he saw inmate Ingram lying on his bed. He explained that Officer Plyler informed him that inmate Ingram had been unresponsive to him. At this time, Corporal Kakouras and Officer Plyler decided to roll inmate Ingram on his back to get a better gauge on the situation. Corporal Kakouras stated that he noticed an unknown fluid like substance on inmate Ingram's blanket and mattress cover and he noticed that inmate Ingram appeared to have urinated on himself. Upon rolling inmate Ingram over, Corporal Kakouras and Officer Plyler realized that inmate Ingram was not breathing which prompted Officer Plyler to call a Code Blue over his radio. Corporal Kakouras and Officer Plyler then decided to move inmate Ingram from his bed to the cell floor to begin CPR. Corporal Kakouras stated that he began giving rescue breaths using his face shield while Officer Plyler administered chest compressions. After a few moments, Lieutenant McMillan, Sergeant Totherow and Nurse Bell arrived on scene to assist. He stated that Officer Plyler, Nurse Bell and himself continued CPR on inmate Ingram rotating regularly to avoid getting tired. Corporal Kakouras stated that Lieutenant McMillan retrieved the crash cart and the AED to further assist with life saving measures.

Corporal Kakouras stated that the AED was placed on inmate Ingram, but that it did not advise a shock. He then explained that they continued CPR on inmate Ingram as EMS personnel began to arrive. Corporal Kakouras explained that after EMS personnel arrived, an IV was inserted into inmate Ingram's leg. Corporal Kakouras stated that he and other Officers on scene continued life saving measures until EMS personnel called the time of death prompting them to cease all life saving measures. He went on to state that after all life saving measures had ceased, he along with Officer Swenor began maintain the scene documenting all individuals who entered and left the scene. He was then instructed to return to booking to begin his report.

Interview with Detention Officer Joshua Swenor

On May 29, 2018 at approximately 1855, I interviewed Officer Joshua Swenor regarding the above allegations. I asked Officer Swenor to walk me through the sequence of events regarding the above referenced incident. Officer Swenor stated that he and Officer McCoy entered Housing Unit India and began their initial head count. Officer Swenor was asked if he observed inmate Ingram during this headcount, to which he responded by stating that he remembered seeing him in his cell, but could not recall him moving or speaking. . Officer Swenor was asked if he knew what things should be observed for while conducting head counts. He replied, "You should look to see if the inmate is responding and that there are not any issues." Officer Swenor was asked why he did not do this during this headcount. He replied by saying that they just got caught up in just counting the inmates to make sure they were where they were supposed to be. Officer Swenor stated that after they had finished their head count, they proceeded to place an inmate up from his recreation and then assisted with checking the blood sugars of three inmates. Officer Swenor explained that after they had finished those duties, the dinner trays arrived in the unit so they began feeding. He went on to explain that he was tasked with passing out juice to all inmates, while Officer McCoy handed out the actual dinner trays. Officer Swenor explained that upon arriving to inmate Ingram's cell, he noticed that he was lying on his bed under his blanket. He also observed that he had not retrieved his dinner tray placed in his flap by Officer McCoy. Officer Swenor stated that he called for inmate Ingram several times, but never received a response so he decided to move on to the next inmate. Officer Swenor was asked why he did not receive a verbal response from inmate Ingram prior to moving on to the next cell. Officer Swenor explained that it was not uncommon for inmates to refuse their meals, and that he just assumed inmate Ingram was having a bad day and didn't want to eat. Officer Swenor then stated that after feeding all other inmates in Max II, Officer McCoy went and retrieved the dinner tray from inmate Ingram's flap. They then proceeded to head to the next section.

Officer Swenor stated that while feeding in the Segregation Unit, he was informed by Officer McCoy that Officers Sexton and Plyler were going to check on inmate Ingram. A short time later he heard a 10-33 called followed shortly by a Code Blue. Officer Swenor stated that he and Officer McCoy began to head back to Max II to assist. Upon arriving in Max II, Lieutenant McMillan instructed him to assist with retrieving the crash cart and bringing it upstairs to inmate Ingram's cell. Officer Swenor stated that he and Lieutenant McMillan carried the crash cart up to inmate Ingram's cell. Officer Swenor stated that he assisted in any way he could until he was instructed to head to booking to retrieve EMS personnel. Officer Swenor stated that he escorted EMS personnel to the scene so they could begin assisting. Upon arriving to the scene, Officer Swenor realized that the EMS personnel did not have a backboard which he thought they would need to remove inmate Ingram from upstairs. Officer Swenor stated that he returned to booking and retrieved a backboard and returned to Max II with it. Officer Swenor then stated that he left Max II and resumed his duties as the housing unit officer. Officer

Swenor stated that once he realized that inmate Ingram had passed, he began maintaining the crime scene by documenting who entered and exited the scene until he was relieved. Officer Swenor then reported to booking to begin his report.

Interview with Detention Officer II Darlene McCoy

On May 29, 2018 at approximately 1915, I interviewed Officer Darlene McCoy regarding the above allegations. I asked Officer McCoy to walk me through the sequence of events regarding the above referenced incident. Officer McCoy explained that Officer Swenor and herself entered Housing Unit India and conducted their initial head count. She explained that she did not observe anything unusual during this headcount, but said she couldn't recall seeing inmate Ingram when asked. Officer McCoy was asked what things an officer should look from inmates while conducting head counts. She replied by saying "You should look to make sure the inmate is breathing and talking." Officer McCoy was asked why she didn't do this during this specific round. She explained that while conducting her head count, she did not observe anything that would have caused concern for her. Officer McCoy went on to say that after conducting the initial headcount, Officer Swenor and herself placed an inmate up from his recreation and then proceeded to check the blood sugars of three inmates. After completing these tasks, the dinner trays arrived in the unit so they began feeding. Officer McCoy stated that upon entering Max II with the dinner trays, she instructed Officer Swenor to begin handing out the juice while she handed out the trays. Officer McCoy stated that upon arriving to inmate Ingram's cell, she placed his dinner tray in his flap. She stated that she called for inmate Ingram several times to come get his tray, but he remained in bed under his blanket. Officer McCoy then stated that she left his tray in his flap with the assumption that he would come and grab it by the time they finished feeding the rest of the unit. Officer McCoy stated that after feeding the rest of the unit, she observed that inmate Ingram had not retrieved his tray so she went and removed it. Officer McCoy was asked why she didn't receive a verbal response from inmate Ingram at that time. She replied by saying that it wasn't unusual for inmate Ingram to act that way. She further explained that this exact situation has happened in the past with inmate Ingram. She explained that after they get done feeing the entire unit, he usually buzzes into the officer's console asking for his tray.

Officer McCoy stated that after feeding Max II, they proceeded to feed the remaining units. She stated that as they entered the next unit, she used the intercom system to explain to Officer Hodges that inmate Ingram did not receive a tray and asked him to buzz into his room to try and get him to respond. Officer McCoy said she was advised by Officer Hodges that Officer Sexton was going to go and check on inmate Ingram. A short time later she heard a 10-33 (Medical Emergency) called over the radio followed shortly by a Code Blue. Officer McCoy stated that Officer Swenor and she responded to Max II to assist. Upon arriving to Max II, she was instructed by Lieutenant McMillan to head to booking to

grab trash bags and tape so the windows in Max II could be covered. Upon retrieving these items, she began covering the inmate windows in Max II. Upon completion of that task, she explained that she returned to the officer's console to resume her duties as housing unit officer.

Follow Up Interview with Detention Center Nurse Leigh Bell

On May 30, 2018 at approximately 1442, I interviewed Nurse Leigh Bell regarding the above allegations. Nurse Bell was asked to walk me through the sequence of events regarding the above referenced incident. Nurse Bell stated that she heard a 10-33 (Medical Emergency) being called from Housing Unit India. Nurse Bell stated she began to respond immediately. She stated that while responding, she heard the officers call a Code Blue, indicating that there was an unresponsive inmate. Upon arriving on scene, Nurse Bell stated that she witnessed Officers Kakouras, Plyler and Totherow performing CPR on inmate Ingram so she entered the cell and began assisting. Nurse Bell noted that during chest compressions, she noticed that inmate Ingram had a pulse that she could detect but none when the compressions would stop. Nurse Bell stated that she asked officers on scene to retrieve the crash cart along with the AED. When the AED arrived on scene, Nurse Bell stated she placed in on inmate Ingram, but that it did not advise a shock. A short time later, the EMS supervisor arrived on scene and began assisting. Nurse Bell explained that the EMS supervisor inserted a breathing tube into inmate Ingram as well as placing an IV into his right leg. Nurse Bell also explained that inmate Ingram was given approximately five (5) rounds of epinephrine. Nurse Bell stated that CPR continued on inmate Ingram as other EMS personnel arrived on scene. Nurse Bell explained that life saving measures continued for approximately twenty more minutes on inmate Ingram before EMS personnel decided to cease all measures.

Interview with Detention Officer Christopher Hodges

On June 1, 2018 at approximately 0827, I interviewed Officer Christopher Hodges regarding the above allegations. Officer Hodges was assigned to the officer console booth for his first rotation. Officer Hodges was asked if inmate Ingram had used his in cell intercom to contact him or request anything from the time he assumed his duties. Officer Hodges stated "No." Officer Hodges was asked how he was alerted to a possible situation involving inmate Ingram. He explained that a couple of the inmates in Max II had buzzed in after Officers McCoy and Swenor had finished passing out dinner trays and requested that officers check on inmate Ingram. He went on to say that the inmates were concerned because they hadn't spoken to inmate Ingram in a little while and he did not receive his dinner tray. Officer Hodges stated that approximately the same time he was speaking with the inmates regarding Inmate Ingram, Officers McCoy and Sexton entered the officer's console. Officer Hodges advised Officer McCoy that the inmates were requesting they check on inmate Ingram. Officer Hodges then

spoke with Officer Sexton who agreed to check on inmate Ingram so Officer McCoy could help Officer Swenor finish feeding. Officer Hodges stated that Officer Sexton went to check on inmate Ingram and a short time later Officer Plyler joined her in Max II. It was at this time that Officer Plyler called a 10-33 (Medical Emergency) regarding inmate Ingram. Officer Hodges stated that during the incident he remained in the officer's console and operated doors for assisting officers.

Video Surveillance

I watched video surveillance from Friday May 18, 2018. The following is a summary of what was observed:

Friday, May 18, 2018

17:52:04	Officer McCoy conducts initial 1800 headcount.
17:52:16	Officer Swenor conducts initial 1800 headcount.
18:15:00	Officers McCoy and Swenor enter Max II to check the blood sugar of the inmate in cell 62.
18:20:10	Officers McCoy and Swenor exit Max II.
18:42:10	Officer McCoy and Swenor enter unit to begin feeding dinner.
18:44:15	Officer McCoy approaches inmate Ingram's cell and opens the cell door flap, then places his dinner tray in the cell door flap opening.
18:45:30	Officer Swenor approaches inmate Ingram's cell in order to provide him with juice. Officer Swenor does not provide inmate Ingram with juice due to him not approaching the door.
18:50:20	Officer McCoy approaches inmate Ingram's cell and removes his dinner tray from the cell door flap opening.
18:50:33	Officers McCoy and Swenor exit Max II.
19:01:26	Officer Sexton enters Max II.
19:01:37	Officer Sexton approaches inmate Ingram's cell and attempts to gain his attention.
19:02:18	Officer Plyler enters Max II and heads to inmate Ingram's cell.
19:03:27	Officers Plyler and Sexton enter inmate Ingram's cell.
19:03:40	Corporal Kakouras enters Max II and heads to inmate Ingram's cell.
19:04:00	Officer Sexton appears to use radio to call a Code Blue.
19:05:01	Lieutenant Khatari McMillan, Sergeant Totherow and Nurse Bell enter Max II.
19:05:24	Lieutenant McMillan exits Max II.
19:06:04	Officer Swenor enters Max II.
19:06:07	Lieutenant McMillan enters Max II with the crash cart.
19:06:45	Lieutenant McMillan and Officer Swenor carry the crash cart up to inmate Ingram's cell.
19:07:42	Lieutenant McMillan exits Max II.
19:07:55	Officer Swenor exits Max II.
19:08:39	Corporal Kakouras exits Max II.

19:08:50	Corporal Kakouras returns to Max II.
19:09:27	Lieutenant McMillan and Officer McCoy enter Max II. Corporal Kakouras exits Max II.
19:09:36	Lieutenant McMillan and Officer McCoy begin covering inmate windows in Max II.
19:10:16	Corporal Kakouras enters Max II.
19:13:11	Officer Sexton exits Max II.
19:16:06	Officer Sexton enters Max II with EMS supervisor. Both head directly for inmate Ingram's cell.
19:19:43	Lieutenant McMillan exits Max II.
19:19:49	Officer McCoy exits Max II.
19:19:56	Officer Plyler exits Max II.
19:20:40	Lieutenant McMillan enter Max II.
19:21:52	Officers Plyler and Swenor enter Max II with other EMS personnel. The EMT's immediately report to inmate Ingram's cell to assist.
19:22:30	Officers Plyler and Sexton exit Max II.
19:23:28	Officer Swenor exits Max II.
19:24:44	Lieutenant McMillan exits Max II.
19:26:42	Officer Swenor enters Max II with a backboard.
19:33:27	Officer Hodges enters Max II.
19:33:40	EMT's appear to cease all life saving measures. EMT's and Officers begin to exit inmate Ingram's cell.
19:34:12	Lieutenant McMillan enters Max II.
19:34:39	Lieutenant McMillan exits Max II.
19:35:38	Nurse Bell exits Max II.
19:36:02	Corporal Kakouras exits Max II.
19:37:15	Officers Hodges and Swenor enter Max II.
19:38:30	Sergeant Totherow exits Max II.
19:39:10	Officers Hodges and Swenor exit Max II.
19:40:00	All EMT's exit Max II.
19:41:18	Corporal Kakouras and Officer Swenor enter Max II.
19:43:09	Corporal Kakouras exits Max II.
19:44:13	Officer Hodges enters Max II and delivers an inmate tray to an inmate.
19:44:55	Officer Hodges exits Max II. Sergeant Frame and Corporal Kakouras enter Max II.
19:49:16	Lieutenant Howley enters Max II.
19:50:12	Lieutenant Howley and Sergeant Frame exit Max II.
19:52:24	Corporal Kakouras conducts security round in Max II.
19:54:24	Nurse Bell enters Max II.
19:54:54	Corporal Kakouras exits Max II.
19:55:39	Corporal Kakouras enters Max II.
19:56:00	Nurse Bell exits Max II.
20:02:38	Corporal Kakouras exits Max II.
20:04:02	Captain Davies enters Max II.

20:04:44	Captain Davies exits Max II.
20:16:37	Captain Guzman and Officer Hodges enters Max II. Officer Hodges conducts guard tour in unit.
20:18:18	Officer Hodges exits Max II.
20:34:58	Captain Guzman exits Max II.
20:51:43	Officer McCoy enters Max II to conduct a guard tour.
21:03:16	Officer McCoy exits Max II.
21:18:17	Officer McCoy enters Max II.
21:19:29	Officer Swenor exits Max II.
21:22:41	SLED Agent Todd Ruffner, Chief Hicks and Officer Swenor enter Max II and approach the scene.
21:25:28	Deputy Coroner Butch Lindsey, Detective Mark Motz and Sergeant Mosely from the York County Sheriff's Office enter Max II and approach the scene.
21:31:03	Officer McCoy exits Max II.
21:32:32	SLED Crime Scene Technicians Anna Tankersley and James Tallon enter Max II and approach the scene.
21:43:16	Sergeant Frame enters Max II.
21:43:54	Officer Swenor exits Max II.
21:47:13	Officer Hodges enters Max II to conduct guard tour.
21:50:28	Officer Hodges exits Max II.
21:55:28	SLED Agent Ruffner exits Max II.
21:59:40	SLED Agent Ruffner returns to Max II.
22:01:14	SLED Agent Ruffner exits Max II.
22:15:01	CBC Employees Mike Hill and Marcel Schrijvers arrive on scene.
22:15:25	Sergeant Totherow enter Max II.
22:21:24	Inmate Ingram is removed from Housing Unit India by CBC employees Hill and Schrijvers.

SLED Response

SLED agent Todd Ruffner responded to the facility as well as Crime Scene Technicians Anna Tankersley and James Tallon.

B-Team Follow up

Chief Hicks contacted Eric Skidmore with the South Carolina Law Enforcement Program (SCLEAP) in order to schedule a post-critical debriefing with the staff that was involved in this incident. That debriefing was scheduled and held on Tuesday June 5, 2017 from approximately 2:00 p.m. to 4:00 p.m.

Conclusion

After reviewing the video surveillance and interviews with all of the staff involved, it is my conclusion that all Detention Center staff provided the appropriate medical care in a timely manner to inmate Ingram as required.

During my investigation, it was determined that staff members failed to conduct a full wellbeing check during a formal headcount of the inmate population. Staff members subsequently also failed to receive a verbal refusal during feeding. It is my determination that Officers McCoy and Swenor did violate the following York County Sheriff's Office, Detention Division, Policies and Procedures:

1000.07 IV.C.1 Inmate Supervision

Classification

EXONERATED

The incident occurred, but staff acted quickly and performed life saving measures in an attempt to preserve life.

SUSTAINED

During the course of my investigation it was determined that staff members did violate York County Sheriff's Office, Detention Division, Policies and Procedures by failing to conduct a full wellbeing check.

NARRATIVE

At approximately 1900 on 05-18-2018, I, Reporting Officer Hodges, Chris, received intercom calls from Cell 54 (Mobley, Michael; 101554A) and Cell 62 (McCoullough, Tymel; 1508613A). Both inmates expressed concern for Subject # 1, Inmate Ingram, Oxavria (53789A). I obliged their concerns and called into Cell 53, and then asked Inmate Ingram if he was doing ok on three occasions. My verbal well-being checks garnered no response. I then notified Officers McCoy and Swenor, who were about to conduct dinner delivery at Housing Unit India: Segregation. ABO Sexton, S. had just entered Housing Unit India: Master Control when I asked her to conduct a well-being check on Inmate Ingram in Cell 53. At this time, she moved back toward door 6I00K and waved down Transport Officer Plyle, M. to come assist. ABO Sexton and T.O. Plyer entered Housing Unit India: Max II and went to Cell 53. Upon checking on Inmate Ingram and not receiving a response, a 10-33 (Medical Emergency; 1902) was called. This code was followed directly by a Code Blue (Medical Emergency/Crash Cart Needed; 1903) and a Code White (Mandatory Facility Lockdown/Headcount; 1904). Lt. McMillan, K., Sgt. Totherow, A., Cpl. Kakouras, C., Officer McMcoy, D., Officer Swenor, J. and Nurse Bell all responded. Emergency Medical Services were alerted by Master Control and responded to Housing Unit India at approximately 1920. All actions taken were to ensure the safety and security of the facility, inmates and staff.

NARRATIVE

On Friday May 18,2018 at approximately 1850hrs, I Reporting Officer Plyler was Delivering Medication Boxes to Housing Unit India when I R/O Plyler Observed ABO Sexton knocking on door 6100K to get my attention upon arrival in Housing Unit India I Observed ABO Sexton at top of stairs in front of door Cell I53 and heard her call for I-Block Control to access Cell I53, ABO Sexton then banged on cell door several time to try to get inmate to respond to us after no response, I R/O Plyler then announced Medical Emergency 10-33 over the radio system. I then called over the radio twice for control to access 10-36 cell I53. ABO Sexton and I R/O Plyler entered the cell, I observed Inmate Ingram, Oxavria Lenaerd (Jacket # 53789A) laying face down on his bed covered with his blanket and had a towel or sheet wrapped around his head and eyes, I then attempted to wake the inmate up by shaking him on his arm. After not being able to wake inmate Ingram, I tried to feel for a pulse and signs of breathing by this point, Cpl. Kakouras had arrived to assist we rolled the inmate on to his back and noticed that he was not breathing and applied a sternum rub using my right hand, ABO Stacey Sexton then used radio system to announce Code Blue and myself and Cpl Kakouras moved inmate to the cell floor. I R/O Plyler started chest compressions and LBO Kakouras started rescue breaths, we continued for approximatly 3 rounds, Sgt Totherow then stepped into Cpl. Kakouras position and began rescue breaths we continued for 3 rounds, LT K. McMillan and Nurse Bell then arrived with the crash cart and AED. Cpl. Kakouras then took over chest compressions so I' could move out of Nurse Bell's way. I then positioned my self outside of the cell door and asked the inmate in cell I54 if he knew anything about I/m Ingram per Sgt Totherow. I R/O Plyler then entered the cell again and swapped out with Nurse Bell with chest compressions off and on for several rounds of compressions. Cpl. Kakouras took over chest compression, at this point Emergency Medical Supervisor arrived and I moved the crash cart out of the cell. I R/O Plyler was then instructed to step down stairs and help Officer McCoy with covering cell windows and to cool down. While in the officer console I R/O Plyler then observed three additional Emergency Medical Services personnel arrive. I then entered Max II again and was instructed by Sgt. Totherow to report to booking along with ABO Sexton to start our reports. All actions taken were for the safety and security of facility staff and inmates.

NARRATIVE

On 5/18/2018 at the approximate time of 1855hrs I, Officer Sexton approached cell I-53 in housing unit India after I was informed via intercom by Officer Hodges that Inmate Ingram, Oxavria (Jacket #53789A) was not responding to his attempts to contact him via intercom. I began hitting the door and trying to get Inmate Ingram to respond but recieved no response. I asked control to access door I-53 via radio two times. Officer Plyler arrived into the unit during my attempts to get a response from Inmate Ingram. Officer Plyer called a medical emergency via radio and we asked control to access door I-53 via radio two more times. The cell door was then opened. Officer Plyer and myself entered the cell. I touched Inmate Ingram's foot in an attempt to gain a response from him. Officer Plyler then pushed on Inmate Ingram's shoulder with no reponse from Inmate Ingram. Corporal Kakouras arrived on scene along with Sergeant Totherow. Corporal Kakouras and Officer Plyler placed Inmate Ingram onto the floor in his cell and realized that he was not breathing. I called a Code Blue via radio and Emergency Medical was dispatched via master control. Officer Plyler and Corporal Kakouras started chest compressions and rescue breaths. Lieutenant McMillan and Nurse Bell arrived on scene with the crash cart. We placed the AED pads onto Inmate Ingram's chest and continued CPR. Once the first emergency medical response team arrived I ran to the booking area to assist EMS worker to the housing unit. After the arrival of the first team, the second team of medical responders arrived. Officer Plyler and I were sent out of the unit to begin our reports. All actions were taken to maintain the safety and security of the facility, staff and inmates.

NARRATIVE

On 05/18/2018 at approximately 1900 hours, I Corporal Kakouras was in building III booking when a 10-33 (Medical Emergency) was called using the hand held radio in Housing Unit India cell I-53. I corporal Kakouras entered the unit and ran upstairs to cell I-53, when I entered the cell I saw inmate Ingram, Oxavria Lenard laying on his bed face up. I could see some type of liquid fluid on inmate Ingram's mattress cover and underwear. Transportation Officer Plyler and Officer Sexton were already in the cell and told me that inmate Ingram was not breathing. I then said "call a code blue (unresponsive person/AED)", Officer Plyler called the code blue. Officer Plyler and I lifted inmate Ingram off of his bed and placed him on the floor of the cell, and began CPR. I pulled out my face shield and gave two rescue breathes while Officer Plyler performed 30 chest compressions, Nurse Bell also responded to the unit and assisted with rescue breathes and chest compressions. Once the AED and crash cart was brought to the unit, nurse Bell applied the AED pads to Inmate Ingram. We continued CPR, because the ADE stated "no shock needed, continue CPR". When EMS arrived, they assisted with CPR and attached monitors to inmate Ingram. CPR was continued on inmate Ingram, until the time of death was announced at 1934 hours. All actions that were taken were for the safety and security of the facility, inmates and officers.

NARRATIVE

On the above date and time of the original report I responded to Housing Unit "I" due to a 10-33 (medical emergency) being called. Before I could reach Housing Unit "I" Officer Sexton called a code blue intern a code white was called by Sgt. Totherow. When I arrived in Housing Unit "I" Max II Cell# I53 I observed Inmate Ingram, Oxavria, Leonard Jacket# 53789A lying on the floor unresponsive and several officers administering CPR. I immediately instructed Officer McCoy to go to the supervisors office and retrieve the red evidence tape from my desk and a roll of black trash bags. When I started to return to Max II I heard Nurse Bell yell for the crash cart. I immediately entered the the officer's console to retrieve the crash cart and took it to Max II where Officer Swenor and I carried it up the stairs to cell# 53. When Officer McCoy returned to Housing Unit "I" with the evidence tape and trash bags we began to cover all the cell door windows in Max II. Once all the cell door windows were covered I ran down to the supervisor's office and called Chief Hicks and Captain Davies to make them aware of the situation. After informing the Chief and the Captain of what was taking place I returned to Housing Unit "I" Max II Cell# 53 where I noticed that everyone had exited the room. I walked up the stairs and when I approached Nurse Bell she informed me that the subject was pronounced as being deceased by EMS Supervisor Scott Calloway. I then returned back to the supervisors office and called the Chief and the Captain of what Nurse Bell had told me. All actions taken were for the safety and security of the staff, inmates and facility.

NARRATIVE

On 05/18/2018 at about 1904 hrs I, Sgt. A. Totherow heard the call for a 10-33 (Medical Emergency) called as I was leaving HU-Medical. I went to booking III to retrieve the medical bag out of the supervisor's office and saw that Lt. K. McMillan was getting it so I went on to HU-I. As I was going to the unit the call was made for code blue (Medical-Unresponsive/not breathing/crash cart/aed) so I in turn called for a code white (Mandantory Facility Lockdown) and for EMS to be notified. When I arrived Cpl . C. Kakouras, Officer. M. Plyler and Officer S. Sexton were already in the cell performing cpr in cell I-53 that belongs to Inmate Ingram, Oxavria #53789A. Nurse Bell Did arrive about the same time as me. Lt. McMillan retrieved the AED from I-Block control and it was placed on the inmate by the nurse. After several rounds of cpr I relieved Cpl. Kakouras doing breaths while he and Plyler switched out doing chest compressions. The crash cart was brought up the stairs and the nurse hooked up an assisted breather device and I held it in place till EMS did arrive. Once Ems was on scene I got out of the cell then came back in as they were hooking up some type of I.V. and I did hold the bag of fluid and compressed it as instructed to free them up to work on the Inmate. The EMS supervisor did call the time of death at 1934. I instructed Officer Hodges who is working the unit to stay in the unit securing the scene until the coroner and SLED arrived. I instructed Officer's McCoy and Swenor rounds still need to be performed as usual. I then left the unit to do reports and check on the officers involved in the incident. All actions were taken for the safety and security of the facilty, the staff and the inmates.

NARRATIVE

Upon arrival to Housing Unit India at 1745. I, Officer McCoy and Officer Swenor conducted a guard tour and beginning head count of each inmate starting with Max 2. As I approached cell#I-53 assigned to inmate Ingram, Octavia jacket#53789A. I observed him laying on his bed on his stomach as if he was asleep. I said to him, "Get up!" When completing the head count, then returning back to the officer's console to report the count. Officer Swenor and I walked to Max 1 to place inmate Morgan, Michael jacket#84467A back in his cell#2 after completing his recreation time. Thereafter we continued in Max 1 with inmate Schultz, Jeffrey jacket#32382A blood sugar in cell#9, then we both walked to Segregation and conducted a second blood sugar with inmate Campbell, Joseph jacket#34902A. Max 2 approached cell#63 belonging to inmate McCullough, Tymel jacket#1508619A to conduct his blood sugar, then the dinner trays arrived to Housing Unit India, me and Swenor counted and visually checked each dinner tray. When entering Max 2 of Housing Unit India. We both started feeding on the upper tier. When approaching cell#53, I tapped on inmate Ingram, Octavio jacket#53789A cell door and said, " Get Up!" He didn't respond. I walked back downstairs to retrieve more trays and walked to his cell door again saying, "It's time to eat! Come get your tray?" Ingram continued to lay there. Officer Swenor walked over to cell#53 offering inmate Ingram juice while tapping on his cell window. No response. I walked back to his cell once again to remove his dinner tray from his flap. We both completed feeding in Max 2 then walked towards Max 1 to start feeding, moments later I was told by Officer Hodges that Officer Sexton went to check on inmate Ingram. Thereafter Officer Plyler called via radio 10-33 (medical emergency), Nurse Bell, Corporal Kaouras, Lieutenant McMillan and Sergeant Totherow responded to Housing India. All actions were taken for the Safety and Security of the Staff, Facility and all within.

NARRATIVE

On May 18th 2018 at approximately 1745 I, Reporting Officer Swenor was assigned to Housing Unit India until the end of tour at 0600. Officer McCoy and myself were assigned to be the roving officers until 2400 hours. I had the "wand pipe" as we conducted the beginning count at the beginning of the shift, we had 59 inmates in the unit. All inmates were visually checked. After we concluded the count, Officer McCoy and myself put an inmate up to his cell from recreation time in Max I, after that was completed we went to check 3 blood sugars in the unit. After that was done the trays arrived to be counted. We started in Max II and delivered the food to the inmates. I had the pitcher for juice and started up on the top tier giving juice to the inmates starting at cell 49. Officer McCoy went ahead of me and started to give trays. When I arrived to cell 53 I observed Inmate Ingram, Oxavria (Jacket#53789) on his cell bed on his left side on the left side of the mattress facing the wall, the tray was in the flap area and I tapped the keys on the cell window to try and get Inmate Ingram to get some juice. He appeared to be asleep or just ignoring dinner call.I continued on and gave juice to cell 54, 55 and 56. I went back to the food cart and retrieved 2 more trays and brought them up to 55 and 56. I still saw the tray in Inmate Ingram's flap and I went to the bottom tier and started to conduct feeding for the bottom tier. After we completed the feeding. Officer McCoy went up to Inmate Ingram's cell and asked if he was refusing the tray. She took the tray from the flap and we went to Max I to feed the inmates. When we were in Max I Officer McCoy had to leave the unit briefly and I finished up feeding. We were out of the unit heading to Segregation Unit when McCoy advised that TO Plyler and ABO Sexton were going to check on Inmate Ingram. I told Officer McCoy that we should suspend feeding until we make sure that Ingram is checked on incase they need assistance. We started walking to door 6I102 when we heard "I Block control I53 10-36" after a few seconds 10-33 CODE BLUE was called. I hit the call button on door 6I102 and then called via radio to master control open 6I102 to assist the officers in the unit. Lt McMillian, Sgt Totherow were in the unit before door 6I102 could be opened. I asked Lt McMillian at the door to Max II what he needed. He stated "get the crash cart!" We both went into I Block control and got the AED and the crash cart. As I went into Max II I activated the AED and took the cover off the AED. I went up the stairs into I53 to find CPR in progress by Officers Plyler, Sexton and Nurse Bell. Lt McMillian and myself went to the bottom tier and retrieved the crash cart and brought it to tier II. At that time I went back down to the bottom tier and asked Lt McMillian what he needed help with, his orders were to go to Booking and await EMS and bring them to the scene. I awaited EMS and when the Piedmont Pickup truck arrived I assisted him through Booking and ABO Sexton brought him to I Block, I awaited the Ambulance's arrival and brought them to I Block. At that time I realized there was no way to extricate without a backboard and to still continue compressions. On the orders of Lt McMillian and the EMS crew I went to the Piedmont ambulance and retrieved a backboard. When I arrived with it Sgt Totherow gave the order to check every inmate in the unit. I went cell to cell checking the welfare of each inmate. When I completed the task I went back to Max II and found EMS clearing out and the Inmate was not viable. At that time I told Sgt Totherow I would standby in Max II and standby the crime scene until advised otherwise. The Crime Scene log was started at 1942. I stood by cell I-53 until I was relieved by SGT Frame to write a report in booking. All actions were taken for the safety and facility for all staff, inmates and the facility.

NARRATIVE

Today 05/18/18 at 0530 I was assigned to housing unit India with officers Goforth, Robert and Ward, Derick for the day. I had a few interactions with inmate Ingram,Oxavria Lenard throughout the day. I and officer Goforth fed inmate Ingram at breakfast and he ate his breakfast tray. I and officer Goforth also served inmate Ingram his lunch tray today, and inmate Ingram ate his tray. Inmate Ingram was laying down most of the day and inmate Ingram did not have his daily one hour recreation until around 2000. Inmate Ingram did not leave his cell or the facility during the day shift. Inmate Ingram didn't ask for any request forms or call into the officer console while I was in the console to request anything I reporting officer Beard can't remember the exact time, but around laundry time inmate Ingram was standing at his cell door, and I asked him "have you found any gold today Ingram"? and Ingram smiled and responded "not today Beard not today" and laughed.

Re: SLED File 34-18-0083

Agent Ruffner:

I am writing in reference to your case File 34-18-0083 regarding an investigation into the death of Oxavria Lenard Ingram who died while in the custody of the York County Detention Center on May 18, 2018. My review of the file leads me to conclude that Mr. Ingram died as a result of his seizure disorder and that there is insufficient evidence to charge anyone with a crime related to the death of Oxavria Ingram at this time.

Should you develop additional information that you consider relevant or have any questions for me please do not hesitate to contact me.

Oxarvia Ingram (York County Detention Center)

York County Coroner has released the name of an inmate who was found dead in a jail cell, Friday.

38-year-old Oxavria Ingram of Rockhill was found unresponsive in the county jail.

Officials say Emergency personnel were unable to revive him, and final autopsy results are still pending.

Police say Ingram had been in the Rock Hill city jail since early April after he was charged with shoplifting in March.

YORK

The inmate who died at the York County jail has been identified as Oxavria Lenard Ingram of Rock Hill.

Ingram, 38, had been in the York County Detention Center since early April after an arrest by Rock Hill Police Department officers for marijuana possession and contraband in the Rock Hill city jail. Ingram also was charged in March for shoplifting, police said.

Agents with the State Law Enforcement Division are investigating Ingram's death after a request from the York County Sheriff's Office to conduct an outside probe, said Thom Berry, spokesman for SLED.

Ingram was found unresponsive in his cell around 7 p.m. Friday, police said.

The death at the county jail is the first since 2017, police said. In November, Jonathan John David Morgan, 28, died in the York County jail after he began breathing abnormally, officers said at the time. Morgan had been taken to the county jail after he was charged with contraband in the Rock Hill jail and other charges by Rock Hill police.

The SLED investigation into Morgan's death remains open, said Berry, the SLED spokesman.

A federal lawsuit into the death of an accused double murder suspect at the York County jail in 2013 remains ongoing. Grose, charged in 2013 with two counts of murder, committed suicide in the county jail by banging his head against a wall, officials said.

Grose was in custody after police said he ran over his stepmother and a neighbor in a vehicle attack before he was caught. Grose's mother filed a lawsuit blaming the sheriff's office and medical officials for her sons' death.
