Death Event Note

Problem List/A&P:

1. Acute on chronic respiratory failure

A&P

Patient with noted acute on chronic hypoxic respiratory failure in the setting of central lung mass with postobstructive pneumonia along with COPD exacerbation. Patient status post thoracentesis, pleural fluid with negative cytology. Patient status post bronchoscopy with noted near obstructive right mainstem bronchus lesion status post biopsy. Pathology showing poorly differentiated squamous cell carcinoma.

Patient himself DNR, guards at bedside, under custody. Patient offered palliative radiation per Radiation Oncology however patient declined wanting to pursue hospice measures.

Palliative care services consult help in management, patient clinically deteriorating, continue conservative measures, p.r.n. morphine/Ativan as needed. Patient currently on maximum AVAPS settings, tidal volume 500, P maximum 25, P minimum 18, EPAP 10, 100% FiO2. DNR status noted

2. Lung mass

A&P

As above, status post biopsy pathology showing squamous cell carcinoma, appreciate consult help in management. Guarded prognosis overall

3. PNA (pneumonia)

A&P

Patient noted postobstructive pneumonia, continue prolonged course of Zosyn, continue monitor closely, guarded prognosis overall

4. COPD (chronic obstructive pulmonary disease)

A&P

Patient noted COPD exacerbation, continue bronchodilators, continue systemic steroids, continue wean oxygen requirements as indicated.

5. Atrial fibrillation with RVR (Acute, Onset: 05/05/24)

A&P

Patient: SAYNE,JAMES EARL
Unit#:E001044544
Date: 05/15/24
Acct#:E00067566729

Patient remains tachycardic, unable to tolerate oral medications for time being, not a candidate for anticoagulation given his current prognosis. Continue with IV metoprolol for rate control.

6. Severe sepsis

A&P

Severe sepsis present on admission related to postobstructive pneumonia. Continue monitor volume status, continue monitor perfusion. Guarded prognosis; DNR status noted. Continue course of Zosyn

Final diagnosis:
Lung cancer.
Autopsy requested: not indicated

Pronouncement of Death
Date: 05/15/24
Time: 0344
Clinical assessment: blood pressure absent, cerebral unresponsiveness, pulse absent, pupils dilated/unreactive, respirations absent

Electronically Signed by Goyal,Adarsh MD on 05/15/24 at 0352
